Decision 90 08 017 AUG 8 1990

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Investigation)
for the purpose of considering and)
determining minimum rates for trans-)
portation of sand, rock, gravel and)
related items in bulk, in dump truck)
equipment between points in)
California as provided in Minimum)
Rate Tariff 7-A and the revisions)
or reissues thereof.)

Case 5437
Petition for Modification 342
(Filed February 28, 1990)

In the Matter of the Investigation)
for the purpose of considering and)
determining minimum rates for trans-)
portation of rock, sand, gravel and)
related items in bulk, in dump truck)
equipment in Southern California as)
provided in Minimum Rate Tariff 17-A)
and Southern California Production)
Area and Delivery Zone Directory 1,)
and the revisions or reissues)
thereof.)

Case 9819
Petition for Modification 120
(Filed February 28, 1990)

O P I N I O N

By these petitions South Coast Materials Company (petitioner) requests modification of Minimum Rate Tariffs (MRT) 7-A and 17-A. Petitioner requests the elimination of Item 480 from MRT 7-A, and the establishment of certain zone hauling rates in MRT 17-A for the transportation of asphaltic concrete and cold road oil mixture. The rates would apply for transportation performed with 5-axle dump truck equipment from Production Areas 37C, 37D, and 37WW to certain established delivery zones in San Diego, Orange, and Riverside Counties.

Petitioner alleges generally as follows in support of its request:

1. Petitioner produces, markets, and distributes asphaltic concrete products, using for-hire dump truck carriers, from its facilities located in existing Production Areas 37C, 37D, and 37WW. Deliveries are made to various points located in San Diego, Orange, and Riverside Counties.

2. Zone rates for asphaltic concrete moving in 5-axle equipment are not now published in MRT 17-A from the above production areas to points within the established system of delivery zones.

3. Zone rates to 61 delivery zones are now published in Item 480, MRT 7-A, for the transportation of asphaltic concrete, subject to a minimum weight of 6 tons. Petitioner is the only user of the rates named in Item 480, and believes the prescribed delivery zone descriptions are obsolete, making use of the Item 480 rates impractical. Thus, petitioner seeks the cancellation of Item 480 of MRT 7-A, and the establishment of 5-axle asphalt zone rates in MRT 17-A from San Diego County Production Areas 37C, 37D, and 37WW to delivery zones now established for the hauling of rock and sand from Production Areas 37C and 37WW. (Zone rates are not presently established from Production Area 37D in MRT 17-A.)

Petitioner has furnished with its petitions test traverse data showing tie-in time and distance for existing Production Area 37D, and has also furnished (Appendix C) a proposed cost formula for 5-axle asphalt transportation.

Petitioner believes the use of the modern San Diego zone system will benefit the industry and the general public. Copies of the petitions were sent to four carrier associations and two shipper associations. Notice of the filing of the petitions appeared in the Commission's Daily Transportation Calendar. No protest to the petitions has been received. The staff of the

Commission's Transportation Economics and Analysis Branch recommends that the petitions be granted.

Findings of Fact

1. Item 480 of MRT 7-A names rates for the transportation of asphaltic concrete in dump truck equipment from two production areas located in San Diego County, to various delivery zones located in San Diego, Orange, and Riverside Counties. The rates are subject to a minimum weight of 6 tons, and are not therefore suitable or efficient for application in connection with transportation performed in 5-axle equipment.

2. Petitioner is the only user of the rates presently named in Item 480.

3. Petitioner requests the cancellation of Item 480 from MRT 7-A, and the addition of Production Areas 37C, 37D, and 37WW to Section 15.6 of MRT 17-A, with rates from those Production Areas for the transportation of asphaltic concrete and cold road oil mixture, to the same delivery zones where rates presently apply for the transportation of rock and sand from Production Areas 37C and 37WW.

4. Granting petitioner's request will not be adverse to the public interest, and will allow shipments of asphaltic concrete and cold road oil mixture to move from petitioner's facilities more efficiently and economically than this commodity presently moves under Item 480 of MRT 7-A.

5. The costs submitted by petitioner will produce rates which are reasonable for the transportation of the involved commodities when performed with 5-axle dump truck equipment.

Conclusion of Law

The petitions should be granted. A public hearing is not necessary.

O R D E R

IT IS ORDERED that:

1. Minimum Rate Tariff 17-A (Appendix C to Decision 80578, as amended) is further amended by incorporating the tariff pages shown in Appendix A, attached, to become effective 45 days after today.

2. Minimum Rate Tariff 7-A (Appendix B to Decision 82061, as amended) is further amended by incorporating the tariff pages shown in Appendix B, attached, to become effective 45 days after today.

3. In all other respects, Decisions 80578 and 82061, as amended, shall remain in full force and effect.

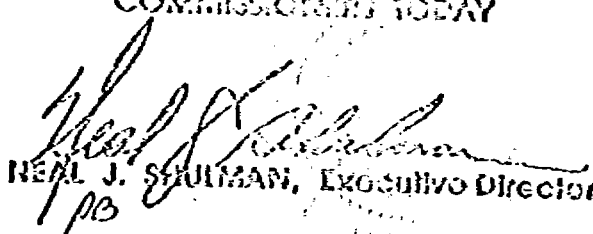

4. The Executive Director shall serve a copy of this decision on each subscriber to Minimum Rate Tariffs 7-A and 17-A.

This order becomes effective 30 days from today.

Dated AUG 8 1990, at San Francisco, California.
