Case 9819  
 Petition for Modification  
 131  
 (Filed September 10, 1990)

O P I N I O N

Industrial Asphalt (Petitioner) has filed to request a modification of Minimum Rate Tariff 17-A (MRT 17-A).

Petitioner is a California joint-venture partnership in the business of producing, marketing, and distributing asphaltic concrete products using independent carriers, out of its facilities located in existing Production Area 30G and 30N, in Orange County, to various points in Los Angeles, Orange, Riverside, and San Bernardino Counties. Copies of its Joint-Venture Partnership Agreement have been previously filed in Case 9819, Petitions 126 and 127, in compliance with Rule No. 16 of the Commission's Rules of Practice and Procedure.

Petitioner desires to have zone rates established for Item 65 commodities from Production Areas 30G and 30N to 18 new delivery zones (Nos. 30120 to 30137 inclusive) in Orange County, established by Decision (D.) 90-03-014 as amended by D.90-08-052. Petitioner alleges that establishing those zone delivery rates will enable petitioner to compete with other producers who already charge the rates.

A copy of the application was served on the California Dump Truck Owners Association, Associated Independent Owner

Operators, Inc., California Carriers Association, California Asphalt Pavement Association, Southern California Rock Products Association, and Department of Transportation of the State of California. The filing of the application was noticed in the Commission's Daily Transportation Calendar of September 20, 1990. There have been no protests or requests for hearing.

The Transportation Division has recommended that the petition be granted.

Findings of Fact

1. Petitioner produces and sells asphaltic concrete products out of its facility in Orange County. Independent carriers haul the products to various points in Los Angeles, Orange, Riverside, and San Bernardino Counties.

2. Petitioner is applying to establish zone rates on Item 65 commodities from its production areas to eighteen delivery zones in Orange County.

3. Petitioner is now operating with difficulty since its competitors are authorized to charge zone rates.

4. The rates adopted in the following order will result in just, reasonable, and nondiscriminatory minimum rates for the transportation involved.

5. A public hearing is not necessary.

Conclusion of Law

MRT 17-A should be amended to extend zone rates for Item 65 commodities from Petitioner's production areas to eighteen zones in Orange County.

ORDER

IT IS ORDERED that:

1. Minimum Rate Tariff 17-A (MRT 17-A) (Appendix C to Decision (D.) 80578, as amended) is further amended by

incorporating the tariff pages contained in Appendix A, attached, to become effective 30 days from today.

2. In all other respects, D.80578, as amended, shall remain in full force and effect.

3. The Executive Director shall serve a copy of this decision on each subscriber to MRT 17-A.

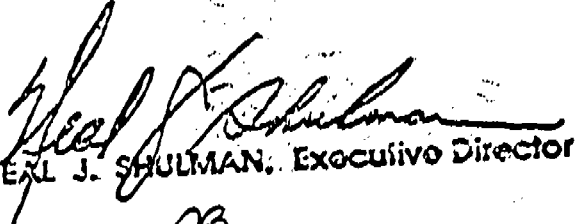

4. The petition is granted as set forth above.

This order is effective today.

Dated February 6, 1991, at San Francisco, California.
