

Decision 92 01 008 JAN 10 1992

ORIGINAL

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Investigation for the purpose of considering and determining minimum rate for the transportation of rock, sand, gravel, and related items in bulk, in dump truck equipment in Southern California as provided in Minimum Rate Tariff 17-A and Southern California Production Area and delivery zone directory 1, and the revisions or reissues thereof.

Case 9819
Petition for Modification 139
(Filed July 11, 1991)

O P I N I O N

Applicant Ortega Rock, Inc., a California corporation, produces and ships crushed concrete and asphaltic concrete products from its facility located in production area 30W in Orange County. It seeks the establishment of zone rates for Item 60 commodities (Section 5) from existing Production Area 30-W in Orange County to limited, established delivery zones, Nos. 19001 to 19610 inclusive, in Los Angeles County and zones, Nos. 29 to 89 inclusive, in San Diego County and all established delivery zones in Orange County including those newly established zones, Nos. 30120 to 30137 inclusive. It contends that modifying Minimum Rate Tariff (MRT) 17-A by establishing these zone rates will eliminate existing rate discrimination now favoring competitive producers located in other production areas.

Transportation Division staff recommends that the application be granted ex parte.

Findings of Fact

1. Notice of the filing of the application appeared in the Daily Transportation Calendar on July 17, 1991. No protests have been filed. A hearing is not necessary.
