Decision 92-08-014 August 11, 1992

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Investigation)
 for the purpose of considering and)
 determining minimum rates for)
 transportation of rock, sand,)
 gravel, and related items in bulk,)
 in dump truck equipment in Southern)
 California as provided in Minimum)
 Rate Tariff 17-A and Southern)
 California Production Area and)
 Delivery Zone Directory 1, and the)
 revisions or reissues thereof.)

ORIGINAL

Case 9819
 Petitions for Modification
 146, 147, 148, 149, 150
 (Filed December 30, 1991)

O P I N I O N

Petitioners Holliday Trucking, Inc. and Holliday Rock Co., Inc. are now receiving rock, sand, and gravel products at facilities located at the addresses listed in the table below. Petitioners seek to have the facilities specified as delivery points in Minimum Rate Tariff (MRT) 17-A. (Despite the similarity in names, the two petitioners are separate corporations owned by different members of the Holliday family.)

<u>Pet.</u>	<u>Name</u>	<u>Address</u>	<u>City</u>	<u>Del Zn</u>
146	Holliday Tkg	2300 W Baseline Rd	San Bernardino	36026
147	Holliday Rock	2193 W Foothill Bl	Upland	36017
148	Holliday Rock	2006 N Campus Ave	Upland	36015
149	Holliday Rock	485 E Santa Ana Av	Rialto	36059
150	Holliday Tkg	249 E Santa Ana Av	Rialto	36059

In each petition, it is alleged that the facilities meet all criteria established in Decision (D.) 57675 and D.80810 for delivery point listing. Once a delivery point is listed in MRT 17-A, the tariff provides a 3¢/ton discount for shipments, because of unloading efficiency and consequent cost savings.

Transportation Division has recommended that the petitions be granted in the absence of protest. No protests have been received.

We will grant each of the petitions. The tariff page adopted with this decision incorporates all of the changes to the tariff needed to grant all five petitions.

By consolidating the five matters and adopting only a single page for five delivery points, we have saved on postage and printing. In addition, we have avoided imposing a significant but purely clerical burden on our staff. Finally, and most importantly, we have reduced the regulatory burden on carriers. Rather than be required to make five entries in the tariff, each of which would immediately supersede the prior page change, they will need to make only one change.

Findings of Fact

1. Notice of the filing of the applications appeared in the Transportation Calendar on January 10, 1992. No protests have been filed. A public hearing is not necessary.

2. The facilities named in each petition:

- a. Will receive at least 1,000 tons of rock products per year.
- b. Have bunkers with a capacity of at least 50 tons.
- c. Have adequate space to maneuver truck and trailer units within 150 feet of dumping points.
- d. Have personnel on duty while transportation is being conducted, to sign delivery tickets and conduct other operations necessary to receive shipments.
- e. Are capable of average total loading and unloading times for truck and trailer combinations of not more than 30 minutes per load.

3. Allowing a discount from otherwise applicable minimum rates for shipments to these facilities is justified by increased efficiency.

4. Since this order grants rate relief, it should be effective today.

Conclusion of Law

These petitions should be granted in full.

ORDER

IT IS ORDERED that:

1. Minimum Rate Tariff (MRT) 17-A (Appendix C to Decision 80578, as amended) is further amended by incorporating Ninth Revised Page 3-3, attached, to become effective 39 days after today.

2. The Executive Director shall serve a copy of this decision on all subscribers to MRT 17-A.

This order is effective today.

Dated August 11, 1992, at San Francisco, California.
