Application 61151  
(Filed December 23, 1981)

O P I N I O N

Rose Ginsburg, doing business as Donrose Trucking Co., requests authority to transfer a certificate of public convenience and necessity to Donrose Trucking Co., Inc., a newly formed California corporation of which Ginsburg is president and principal stockholder. The certificate, issued April 30, 1980 under Public Utilities (PU) Code § 1063.5 in Application GC 9735, File T-118,439, authorizes the transportation of general commodities within the State.

Section 1063.5 authorizes holders of radial highway common carrier permits to convert their permits to highway common carrier certificates. In Decision 89575 dated October 31, 1978, as amended, the Commission held that during the 5-year period after their § 1063.5 certificates become effective, carriers should be allowed to expand or contract their operations conducted under such certificates by making appropriate tariff filings. This procedure preserves the carriers' opportunity, formerly available to radial permit holders, to develop and shape their operations based upon managerial objectives. PU Code § 1064.5 prohibits the transfer of § 1063.5 certificates during that 5-year period except to the extent of

operations actually conducted as a prime carrier. By Resolution 18049 dated July 31, 1979 the Commission recognized that businesses often change their legal form while continuing the same operations, and it held that some transfers of § 1063.5 certificates were not transfers within the meaning of § 1064.5. Therefore, when a transfer of a § 1063.5 certificate is required by a change in the form of the business entity, such as the incorporation of a proprietorship or partnership where the beneficial ownership interests remain substantially the same, the transfer will be authorized without compliance by the applicants with the service rules relating to transfers. This application involves such a transfer. Notice of the filing of the application appeared in the Commission's Daily Calendar of December 29, 1981. No protests have been received. Inasmuch as this is a matter which does not significantly affect any other party, relief from the provisions of the Commission's Rules of Practice and Procedure which require widespread service of the application will be granted.

Findings of Fact

1. There is no change in the beneficial ownership of the § 1063.5 common carrier authority.
2. The proposed transfer would not be adverse to the public interest. A public hearing is not necessary.
3. The following order has no reasonably foreseeable impact upon the energy efficiency of highway carriers.

Conclusions of Law

1. The application should be granted.
2. Relief from the provisions of the Commission's Rules of Practice and Procedure requiring widespread service of the application should be granted.

O R D E R

IT IS ORDERED that:

1. On or before July 1, 1982, Rose Ginsburg may transfer to Donrose Trucking Co., Inc., the operating authority issued under PU Code § 1063.5 in Application GC 9735.

2. Within 30 days after the transfer Donrose Trucking Co., Inc. shall file with the Commission written acceptance of the certificate and a true copy of the instrument of transfer.

3. Donrose Trucking Co., Inc. shall amend or reissue the adoption notice on file with the Commission, naming rates and rules governing the common carrier operations transferred to show that it has adopted or established, as its own, the rates and rules. The adoption notice filings shall be made effective not earlier than 5 days after the effective date of this order on not less than 5 days' notice to the Commission and the public, and the effective date of the adoption notice filings shall be concurrent with the transfer. The adoption notice filings made under this order shall comply in all respects with the regulations governing the construction and filing of adoption notices set forth in the Commission's General Order Series 80 or 147. Failure to comply with the provisions of General Order Series 80 or 147 may result in cancellation of the operating authority granted by this decision.

4. Relief from the provisions of the Commission's Rules of Practice and Procedure requiring widespread service of the application is granted.
