Application 60635  
(Filed June 8, 1981)

ORDER CLOSING PROCEEDING

Interim Decision 93588 dated October 6, 1981 in this application, among other things, increased the rate of return authorized for Laguna Hills Water Company (LHWC) from 11.28% to 12.02%. The proceeding was kept open to afford LHWC an opportunity to amend the application to show that its earnings level at present rates would be below the 12.02% rate of return.

By letter dated April 13, 1982, counsel for LHWC advised: "...LHWC will very shortly file a new General Rate Application. Therefore, LHWC will not file an amendment to Application No. 60635 and will not proceed further with that Application."

Application 60635 is terminated.

This order becomes effective 30 days from today.
