OPINION ON PETITION FOR EXTENSION OF TIME

General Telephone Company of California (General) filed a petition on April 16, 1982 for an extension of time to June 30, 1982 to comply with Ordering Paragraph 3 of Decision (D.) 93728 dated November 13, 1981. General requests the extension because its current recordkeeping system does not supply the information on revenues and expenses required by the Commission in D.93728. No one opposes the request; by its response filed May 25, 1982 the staff supports the request.

Good cause having been shown we find that General's request is reasonable and conclude that it should be granted as provided in the following order. Because the date for compliance has passed, this order should be effective on the date signed.

ORDER EXTENDING TIME

IT IS ORDERED that Ordering Paragraph 3 of D.93728 is amended to read as follows:

3. Representatives from the Commission staff and representatives of Pacific, General, and Continental shall form a committee to develop supplementary memorandum accounting records to track both costs and revenues of service connections by appropriate cost-causing segments of telephone subscribers and submit such a procedure to the Commission within 90 days of the effective date of this order for implementation by

June 30, 1982. The submittal shall be a compliance filing in this proceeding, with a copy served on all parties.

This order is effective today.

Dated JUN 15 1982, at San Francisco, California.
