Application 82-04-05
(Filed April 1, 1982)

O P I N I O N

Jean Sines, an individual, doing business as David R. Sines Trucking, and as Executrix to the Estate of David R. Sines, deceased, requests authority to transfer a certificate of public convenience and necessity to Sines Trucking Company, Inc., a newly formed California corporation of which she is president and sole stockholder. The certificate, issued April 30, 1980 under Public Utilities (PU) Code § 1063.5 in Application GC 9187, File T-79468, authorizes the transportation of general commodities within the State.

Section 1063.5 authorized holders of radial highway common carrier permits to convert their permits to highway common carrier certificates. In Decision 89575 dated October 31, 1978, as amended, the Commission held that during the 5-year period after their § 1063.5 certificates become effective, carriers should be allowed to expand or contract their operations conducted under such certificates by making appropriate tariff filings. This procedure preserves the carriers' opportunity, formerly available to radial permit holders, to develop and shape their operations based upon managerial objectives. PU Code § 1064.5 prohibits the transfer of § 1063.5 certificates during that 5-year period except to the extent of operations actually conducted as a prime carrier. By Resolution 18049 dated July 31, 1979 the Commission recognized that businesses

often change their legal form while continuing the same operations, and it held that some transfers of § 1063.5 certificates were not transfers within the meaning of § 1064.5. Therefore, when a transfer of a § 1063.5 certificate is required by a change in the form of the business entity, such as the incorporation of a proprietorship or partnership where the beneficial ownership interests remain substantially the same, the transfer will be authorized without compliance by the applicants with the service rules relating to transfers. This application involves such a transfer.

Findings of Fact

1. There is no change in the beneficial ownership of the § 1063.5 common carrier authority.
2. The proposed transfer would not be adverse to the public interest. A public hearing is not necessary.
3. The following order has no reasonably foreseeable impact upon the energy efficiency of highway carriers.

Conclusion of Law

The application should be granted.

Only the amount paid to the State for operative rights should be used in rate fixing. The State may grant any number of rights and may cancel or modify the monopoly feature of these rights at any time.

O R D E R

IT IS ORDERED that:

1. Jean Sines, an individual and as executrix of the Estate of David R. Sines, may transfer the operative rights specified in the application to Sines Trucking Company, Inc., a California corporation. This authority shall expire if not exercised by September 30, 1982 or within such additional time as the Commission may authorize.
2. Sines Trucking Company, Inc. shall:
 - a. File with the Transportation Division written acceptance of the certificate and a copy of the bill of sale or other transfer document within 30 days after transfer.

- b. Amend or reissue Jean Sines' tariffs. The tariffs shall not be effective before the date of transfer, nor before 5 days' notice is given to the Commission.
- c. Comply with General Orders Series 80, 100, 104, and 147 and the California Highway Patrol safety rules.
- d. Maintain accounting records in conformity with the Uniform System of Accounts.

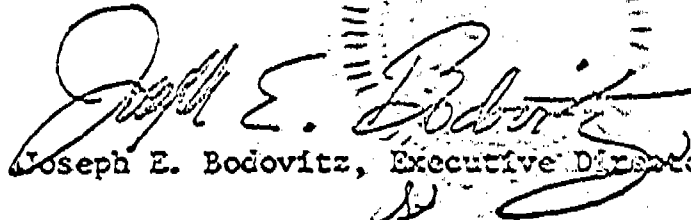

This order becomes effective 30 days from today.

Dated JUL 7 1982 , at San Francisco, California.
