Application 82-05-06
(Filed May 4, 1982;
amended June 17, 1982)

O P I N I O N

By this application, as amended, Adams Trucking Inc., a California corporation, requests authority to deviate from the provisions of Minimum Rate Tariff 14-A in connection with the transportation of milled rice, in bulk, from Woodland to the Port of Sacramento, for Pacific International Rice Mill, Inc.

Applicant is requesting relief from the minimum rates during the months of December through May because its equipment is sitting idle. This request will provide for additional revenue and greater utilization of equipment.

Revenue and expense data submitted by applicant indicate that the transportation involved may reasonably be expected to be profitable under the proposed charges.

The application and amendment were listed on the Commission's Daily Calendars of May 6 and June 21, 1982. No objection to the granting of the application, as amended, has been received.

The proposal is not a major action significantly affecting energy efficiency within the meaning of Public Utilities Code Sections 3502.1 and 3502.2.

Findings of Fact

1. The deviation from the provisions of Minimum Rate Tariff 14-A is justified.
2. The following order has no reasonably foreseeable impact upon the energy efficiency of highway carriers.
3. A public hearing is not necessary.

Conclusion of Law

The application, as amended, should be granted.

O R D E R

IT IS ORDERED that:

1. On December 1, 1982, Adams Trucking, Inc., a California corporation, may depart from the rates in Minimum Rate Tariff 14-A by charging not less than the rates in Appendix A.

A.82-05-06 T/PNK/FS/WPSC

2. This authority shall expire May 31, 1983, unless
sooner canceled, modified, or extended by order of the Commission.

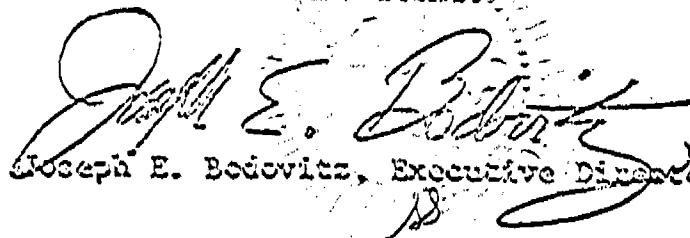

This order becomes effective 30 days from today.

Dated AUG 18 1982, at San Francisco, California.
