water service in its Felton Water)
District.)

Application 60285
(Filed February 23, 1981)

ORDER CORRECTING ERROR

The Commission has discovered that there is an error of omission in Decision (D.) 82-07-047. Annual Metered Resale Service Rate Schedule FE-6M was inadvertently omitted when the rate schedules were revised. The result of this error is that the rate schedule for resale service was canceled and must be reactivated to take effect concurrently with the rate schedule for general metered service.

IT IS ORDERED that:

1. Citizens Utilities Company of California (Felton Water District) shall file revised Schedule FE-6M attached to this order as Appendix A. This filing shall comply with General Order (GO) Series 96. The revised schedule shall apply only to service rendered on and after its effective date.

2. The effective date of revised Schedule FE-6M is July 27, 1962, the same date as Schedule FE-1, General Metered Service, which was filed under D.82-07-047.

This order is effective today.

Dated JAN 19 1983, at San Francisco, California.

of days remaining in the calendar year. The balance of the payment of the initial annual charge shall be credited against the charges for the succeeding annual period. If service is not continued for at least one year after the date of initial service, no refund of the initial annual charges shall be due the customer. If a permanent resident of the area has been a customer of the utility for at least 12 months, he may elect, at the beginning of the billing year, to pay a prorated service charge in advance on a bimonthly basis equal to one-sixth of the annual service charge.

2. The service reestablishment charge provided for herein is in addition to the charges calculated in accordance with this schedule and will be made each time an account is reopened for a customer at the time water service is to be restored after discontinuance at that customer's request.
3. The utility at its sole discretion shall have the right to limit water deliveries under this schedule as to maximum instantaneous flows and maximum amount delivered during any period of time.
4. The utility shall supply only such water at such pressure and flows as may be available from time to time as the result of its normal operation of its system.
5. Utility may temporarily interrupt or cancel deliveries under this schedule for any reason at its option.
6. The furnishing of water for resale under this schedule shall not constitute a perpetual dedication of such service. Service under this schedule may be withdrawn at any time at the sole option of the utility.
