Case 10260
(Filed February 15, 1977)

ORDER EXTENDING EFFECTIVE DATE OF TARIFFS

Decision (D.) 82-12-094 of December 15, 1982, in this proceeding among other things, ordered that tariffs of respondent utilities filed in compliance with the decision were to become effective on June 15, 1983, unless further postponed.

D.83-06-013 dated June 1, 1983, granted Pacific Gas and Electric Company's motion to postpone to July 15, 1983 the effective date of the new tariffs because of potential hardships that could be caused by proposed legislation in Senate Bill 48 (SB 48). SB 48 would retain the currently effective tariffs while the Legislature studies the effects of revisions to the line extension rules. SB 48 has passed the Senate and is still under consideration in the Assembly. A further postponement beyond July 15 would enable us to better ascertain legislative intent and avoid potential hardship upon the utilities and their customers seeking extensions.

The tariffs, as revised by the following Commission resolutions adopted June 1, 1983 should not be put into effect until September 30, 1983:

- Resolution G-2535 - CP National (gas and electric)
- Resolution G-2536 - Pacific Gas and Electric
Company (gas and electric)
- Resolution G-2537 - San Diego Gas & Electric
Company (gas and electric)
- Resolution G-2538 - Southern California Gas
Company (gas)
- Resolution G-2539 - Southwest Gas Corporation
(gas)
- Resolution E-1971 - Southern California Edison
Company (electric)
- Resolution E-1972 - Sierra Pacific Power
Company (electric)
- Resolution E-1973 - Pacific Power & Light
Company

Notice of the following order did not appear on the Commission's public agenda as required by the Government Code. This matter is an unforeseen emergency as Assembly consideration of SB 48 is not concluded, and line extension tariffs should not become effective while that bill is pending.

IT IS ORDERED that the effective date of the tariffs filed
in compliance with D.82-12-094 shall be September 30, 1983. ✓

This order is effective today.
