Application 82-12-08
(Filed December 2, 1982)

ORDER OF DISMISSAL

TEF filed an application on December 2, 1982 to seek an eligibility under OII 42 for its solar device.

In order to process the TEF application the Commission staff had advised the applicant that a certification from Solar Rating Certification Corporation (SRCC) along with laboratory test data must be submitted. In response to the staff's inquiry Tom Christie of TEF telephoned on August 1, 1983, stating that the SRCC certification was still pending. In turn the staff informed the applicant that the SRCC testing results must be received by this office by August 15, 1983. This was necessary for this matter to be evaluated and placed before the September 7, 1983, Commission conference for consideration before termination of the Demonstration Solar Financing Program on September 15, 1983.

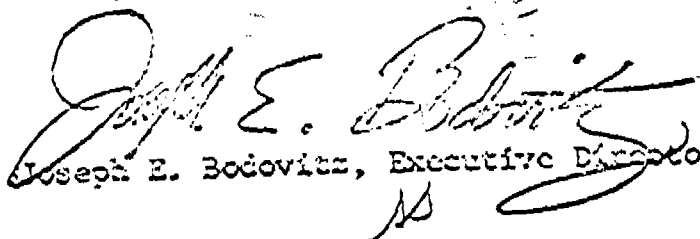

The applicant has not submitted the required testing results. We believe the applicant had ample time to comply with our request for data. This it failed to do. Since the program terminates on September 15, 1983 it is incumbent upon the Commission to dispose of this matter.

IT IS ORDERED that Application 82-12-08 is dismissed.
This order becomes effective 30 days from today.
Dated SEP 7 1983, at San Francisco, California.
