

Decision 83 10 024 OCT 5 - 1983

ORIGINAL

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Investigation for)
the purpose of considering and)
determining minimum rates for trans-)
portation of rock, sand, gravel and)
related items in bulk, in dump truck)
equipment in Southern California as)
provided in Minimum Rate Tariff 17-A)
and Southern California Production)
Area and Delivery Zone Directory 1,)
and the revisions or reissues thereof.)

Case 9819
Petition for Modification 56
(Filed October 25, 1982)

Case 9819
Petition for Modification 61
(Filed March 21, 1983;
amended May 2, 1983)

O P I N I O N

Minimum Rate Tariff 17-A (MRT 17-A) names minimum rates for the transportation by dump truck carriers of certain commodities including rock, sand, and gravel, asphaltic concrete, etc. The tariff contains zone rates which apply from defined production areas to designated delivery zones via a network of routes over most legally traversable highways in the Southern California areas where the rates apply.

California Dump Truck Owners Association (CDTOA) in Petition 56 states that a portion of one of the traverse routes for hauling in Ventura County has been restricted as a through route for trucks with three or more axles. The segment posted is Santa Rosa Road between Camarillo city limits on the west and Moorpark Road on the east. CDTOA requests that the Commission modify Traverse Map 9 in accordance with the proposed deletions and additions shown in Appendices B and C of the petition.

New traverse data is not required of CDTOA in connection with this petition since times and mileages are already available for the route segments which CDTOA proposes for replacing Santa Rosa Road

data. The staff, after analysis, concurs with this proposal and recommends ex parte action in granting the petition.

Increases, mainly in amounts approximating one percent, will occur in some rates by granting Petition 56, since routes of travel are now somewhat more circuitous than when Santa Rosa Road was available to dump trucks as a through route. A small number of rates will increase by 20%.

P. W. Gillibrand by Petition 61 requests that rates in MRT 17-A be revised in order to reflect reduced costs associated with the recent opening of a key portion of State Highway 118 in the San Fernando Valley.

Gillibrand produces rock, sand and aggregates at his plants in Simi Valley located in Production Area 56-0, and Soledad, located in Production Area 19-KK. The petitioner states that he ships in excess of 75,000 tons of these materials per month, all by for-hire dump truck carriers, at rates named in MRT 17-A.

Gillibrand avers that the recent completion of the portion of State Highway 118 between DeSoto and Balboa Avenues now provides a freeway running across the entire northern portion of the San Fernando Valley; that the finished project has thus opened to traffic about five miles of freeway which had long caused detours and delays on many hauls from his production facilities.

Gillibrand has determined distances and running times along the newly opened segment of State Highway 118 and has furnished this information with his petition, as amended. The distances were measured, Gillibrand alleges, in an automobile with a calibrated odometer. The staff has analyzed the traverse data contained in the amended petition. Staff concurs with this data and recommends granting of the amended petition by ex parte action. Reductions in some rates ranging from less than one percent to approximately 30 percent will result by granting Petition 61.

California Asphalt Pavement Association (CAPA) has advised the Commission by letter that it supports Petition 61. CAPA notes that the revisions to the involved time and distance traverse data will result in changes in certain zone rates applicable to the transportation of asphaltic concrete and cold road oil mixtures, as well as to rock, sand, and gravel.

Notice of filing of both petitions appeared on the Commission's Daily Calendar and Daily Transportation Calendar. Copies of the petitions were served on several trucking and shipper associations. No protest to either petition has been received.

Findings of Fact

1. MRT 17-A names minimum rates for the transportation by dump truck carriers of certain commodities including rock, sand, and gravel and asphaltic concrete via a network of routes over most legally traversable highways in Southern California.

2. Rates in MRT 17-A are traditionally developed from cost data contained in traverse networks maintained by the Commission.

3. Present MRT 17-A rates are based upon data which use Santa Rosa Road, located in and near Camarillo in Ventura County, as a traverse route.

4. Santa Rosa Road has recently been restricted as a through route for use by dump truck carriers.

5. Petitioner CDTOA requests that the applicable traverse network be modified to reflect the Santa Rosa road restriction discussed in its petition, and that affected rates be adjusted in accordance with these traverse modifications.

6. Increases mainly in amounts approximating one percent will result in some MRT 17-A rates by granting Petition 56. A few increases will amount to approximately 20%.

7. A portion of State Highway 118 in the San Fernando Valley has recently been completed and is now open to through dump truck traffic.

8. Petitioner Gillibrand requests that data set forth in its amended Petition 61 be substituted for the data presently contained in the traverse network covering the territory surrounding the recently opened part of State Highway 118.

9. Reductions in some MRT 17-A rates ranging from less than one percent to 30 percent will result if Petition 61 is granted.

10. The staff has verified information furnished by petitioners concerning route restrictions and traverse times. It recommends that the petitions be granted.

11. The rates adopted in the following order will result in just, reasonable, and nondiscriminatory minimum rates for the transportation involved.

12. A public hearing is not necessary.

13. The following order has no reasonably foreseeable impact on the energy efficiency of dump truck carriers.

Conclusions of Law

1. The petitions should be granted.
2. Because the petitions involve rate reductions, this order should be effective today.

O R D E R

IT IS ORDERED that:

1. MRT 17-A (Appendix C to Decision (D.) 80578), as amended, is further amended by incorporating the revised tariff pages attached and listed in Appendix A, to become effective October 15, 1983.
2. Common carriers subject to the Public Utilities Act, to the extent that they are also subject to D.80578, as amended, are authorized to establish in their tariffs the rates and routes necessary to conform with the further revisions ordered by this decision.
3. Tariff publications required to be made by common carriers as a result of this order shall be filed on not less than 5 days notice to the Commission and to the public if filed not later than 60 days after the effective date of the minimum rate tariff pages incorporated in this order.

4. Common carriers, in establishing and maintaining the rates authorized by this order, are authorized to depart from the provisions of Public Utilities Code § 461.5 to the extent necessary to adjust long- and short-haul departures now maintained under outstanding authorizations; such outstanding authorizations are modified only to the extent necessary to comply with this order; and schedules containing the rates published under this authority shall make reference to the prior orders authorizing long- and short-haul departures and to this order.

5. In all other respects D.80578, as amended, shall remain in full force and effect.

6. The Executive Director shall serve a copy of this decision on every common carrier, or such carriers' authorized tariff publishing agents, performing transportation services subject to MRT 17-A.

7. The Executive Director shall serve a copy of the tariff amendments on each subscriber to MRT 17-A.

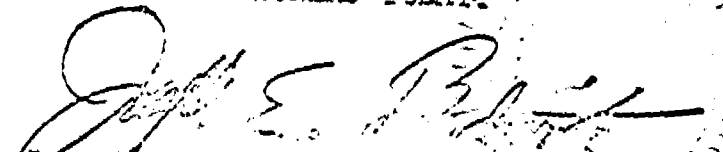

This order is effective today.

Dated October 5, 1983, at San Francisco, California. ✓

NO CHANGE ON THIS PAGE, DECISION

EFFECTIVE OCT 15 1983

ISSUED BY THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA,
SAN FRANCISCO, CALIFORNIA.

8. Petitioner Gillibrand requests that data set forth in its amended Petition 61 be substituted for the data presently contained in the traverse network covering the territory surrounding the recently opened part of State Highway 118.

9. Reductions in some MRT 17-A rates ranging from less than one percent to 30 percent will result if Petition 61 is granted.

10. The staff has verified information furnished by petitioners concerning route restrictions and traverse times. It recommends that the petitions be granted.

11. The rates adopted in the following order will result in just, reasonable, and nondiscriminatory minimum rates for the transportation involved.

12. A public hearing is not necessary.

13. The following order has no reasonably foreseeable impact on the energy efficiency of dump truck carriers.

Conclusion of Law

1. The petitions should be granted.

2. *Because the petitions involve rate reductions this order should be effective today.* ORDER *KW*

IT IS ORDERED that:

1. MRT 17-A (Appendix C to Decision (D.) 80578), as amended, is further amended by incorporating the revised tariff pages attached and listed in Appendix A, to become effective October 15, 1983.

2. Common carriers subject to the Public Utilities Act, to the extent that they are also subject to D.80578, as amended, are authorized to establish in their tariffs the rates and routes necessary to conform with the further revisions ordered by this decision.

3. Tariff publications required to be made by common carriers as a result of this order shall be filed on not less than 5 days notice to the Commission and to the public if filed not later than 60 days after the effective date of the minimum rate tariff pages incorporated in this order.

4. Common carriers, in establishing and maintaining the rates authorized by this order, are authorized to depart from the provisions of Public Utilities Code § 461.5 to the extent necessary to adjust long- and short-haul departures now maintained under outstanding authorizations; such outstanding authorizations are modified only to the extent necessary to comply with this order; and schedules containing the rates published under this authority shall make reference to the prior orders authorizing long- and short-haul departures and to this order.

5. In all other respects D.80578, as amended, shall remain in full force and effect.

6. The Executive Director shall serve a copy of this decision on every common carrier, or such carriers' authorized tariff publishing agents, performing transportation services subject to MRT 17-A.

7. The Executive Director shall serve a copy of the tariff amendments on each subscriber to MRT 17-A.

This order ~~becomes~~ ^{is} effective ~~30 days from~~ today.

Dated OCT 5 1983, at San Francisco, California. R
