Application 83-08-56
(Filed August 22, 1983)

O P I N I O N

Trax Cement, Inc., a California corporation, requests a dump truck carrier permit to operate in the Counties of Ventura, Kern, Riverside, Los Angeles, San Bernardino, Orange, Imperial, San Diego, Fresno, and San Luis Obispo. Notice of the filing of the application appeared in the Daily Transportation Calendar of August 26, 1983. No protests have been filed.

Discussion

Applicant presently holds a cement carrier certificate (File T-141,765). It owns a tractor and two pneumatic dump trailers. It claims a net worth of \$61,000 of which nearly \$8,000 is cash. It also has \$26,000 of accounts receivable. The application is supported by three shippers whose traffic will generate total revenues of over \$200,000 per year.

Findings of Fact

1. Applicant:
 - a. Is a fit and proper corporation to receive a permit to operate as a dump truck carrier.
 - b. Has sufficient operating knowledge and financial ability to initiate and continue the proposed operation.
 - c. Has demonstrated that the privilege sought:
 - (1) Will not endanger the safety of the public or interfere with the public use of the public highways or impair the condition or maintenance of them, directly or indirectly.

- (2) Will not unnecessarily burden the public highways.
- (3) Is necessary to serve the public and will not impair the ability of presently permitted dump truck carriers to provide adequate service at the lowest possible reasonable rates.

2. It can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment.

3. The following order complies with the Commission's Energy Efficiency Plan.

4. A public hearing is not necessary.

Conclusions of Law

1. Applicant should be granted a dump truck carrier permit authorizing operations within and between points in the Counties of Ventura, Kern, Riverside, Los Angeles, San Bernardino, Orange, Imperial, San Diego, Fresno, and San Luis Obispo.

2. The following order should be effective today to be consistent with other permit grants.
