

Decision No. 86515**ORIGINAL**

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Application )  
 of ARCTIC COLD STORAGE, INC. )  
 for an Increase in Rates. )

Application No. 56750  
 (Filed September 14, 1976)

OPINION AND ORDER

Applicant is a public utility warehouseman for the storage of commodities requiring refrigeration at Santa Fe Springs.

The rates charged by applicant for storage, handling, and other services incidental thereto, and the rules and regulations governing the application of rates at Santa Fe Springs are contained in California Warehouse Tariff Bureau Cold Storage Warehouse Tariff No. 2-I, Cal.P.U.C. No. 268, of Jack L. Dawson, Agent.

Applicant requests authority to increase rates and charges by approximately six percent. The requested rate increase has been determined by applicant without consultation or agreement with any other warehouseman. If the authority is granted the increased rates will be published in an individual tariff.

Applicant alleges that present rates are no longer compensatory due to increased costs of labor, power, taxes and other operating costs and the increased rates are necessary to enable it to provide efficient service to the public.

Notice of the proposed increase was sent to each of applicant's storers. No objection to the granting of the application has been received.

Findings

1. The proposed increases have been shown to be justified.
2. A public hearing is not necessary.

The Commission concludes that the application should be granted. Since there are no protests and since the cold storage warehouse industry will be deregulated effective January 1, 1977

(S.B. 1319, Ch. 58, Stat. 1976), the Commission further concludes that the effective date of this order should be the date on which it is signed.

IT IS ORDERED that:

1. Applicant is authorized to establish the increased rates in Application 56750. Tariff publications authorized to be made as a result of this order may be made effective not earlier than ten days after the effective date of this order on not less than ten days' notice to the Commission and to the public.

2. The authority shall expire unless exercised within ninety days after the effective date of this order.

3. The authority granted by this order is subject to the express condition that applicant will never urge before this Commission in any proceeding under Section 734 of the Public Utilities Code, or in any other proceeding, that this opinion and order constitute a finding of fact of the reasonableness of any particular rate or charge. The filing of rates and charges pursuant to this order will be construed as a consent to this condition.

The effective date of this order is the date hereof.

Dated at San Francisco, California, this 13<sup>th</sup> day of October, 1976.
