(Amended March 21, 1977)

OPINION AND ORDER

By this application, as amended, Russell Truck Company, a corporation, requests authority to deviate from the provisions of Minimum Rate Tariff 2 in connection with the transportation of aluminum cans for Continental Can Company from San Mateo to various points in California.

The application is based on special circumstances and conditions detailed therein.

Revenue and expense data submitted by applicant are sufficient to determine that the transportation involved may reasonably be expected to be profitable under the proposed rates.

The application and amendment were listed on the Commission's Daily Calendar of January 17 and March 23, 1977. No objection to the granting of the application, as amended, has been received.

In the circumstances, the Commission finds that applicant's proposal is reasonable. A public hearing is not necessary. The Commission concludes that the application, as amended, should be granted as set forth in the ensuing order and the effective date of this order should be the date hereof because there is an immediate need for this relief.

IT IS ORDERED that:

1. Russell Truck Company, a corporation, is authorized to perform the transportation shown in Appendix A attached hereto and by this reference made a part hereof at not less than the rates set forth therein.

A. 57007 - FBN/cab

2. The authority granted herein shall expire one year after the effective date of this order unless sooner cancelled, modified or extended by further order of the Commission.

The effective date of this order is the date hereof.
