

Decision No. 87445 June 7, 1977

ORIGINAL

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Application)
of CONSOLIDATED DE PUE CORPORA-) Application No. 57237
TION for an Increase in Rates.) (Filed April 19, 1977)

OPINION AND ORDER

Applicant is a public utility warehouseman for the storage of general commodities at San Francisco. The rates, rules and regulations governing applicant's operations are contained in California Warehouse Tariff Bureau Warehouse Tariffs Nos. 48-A and 49-A, Cal.P.U.C. Nos. 253 and 262, respectively, of Jack L. Dawson, Agent.

Applicant requests authority to increase the rates contained in Tariff 48-A by 16 percent and to cancel its participation in Tariff 49-A. The requested increase has been determined by applicant without consultation or agreement with any other warehouseman. If granted, the proposed increases will be published by applicant in an individual tariff.

Applicant alleges that its present rates do not yield sufficient revenue to allow it to conduct its warehouse operations at a profit.

Applicant's rates were last adjusted pursuant to authority granted by Decision 83246 dated August 6, 1974, in Application 54589.

Applicant further alleges that additional revenue is required because of increased costs in all phases of operation, the most significant being the increased cost of plant and clerical labor.

Exhibit C, attached to the application, contains revenue and expense data for the test year ended December 31, 1976 together with adjustments to reflect the proposed increase in revenue should the application be granted. The exhibit discloses that during the test year applicant realized a profit of \$2,066 and an operating ratio of 98.4 percent. Had the sought rates been in effect during the test year applicant would have realized a profit of \$12,526 and an operating ratio of 91.5 percent.

Notice of the proposed increase was sent to each of applicant's storers. No objection to the granting of the application has been received.
