OPINION AND ORDER

By this application, Morley Truck Lines, Inc. requests authority to deviate from the provisions of Minimum Rate Tariff 2 in connection with the transportation of parcels weighing one hundred pounds or less between various points in southern California.

The application is based on special circumstances and conditions detailed therein.

Revenue and expense data submitted by applicant indicate that the transportation involved may reasonably be expected to be profitable under the proposed rates.

The application was listed on the Commission's Daily Calendar of April 11, 1977. No objection to the granting of the application has been received.

In the circumstances, the Commission finds that applicant's proposal is reasonable. A public hearing is not necessary. The Commission concludes that the application should be granted as set forth in the ensuing order and the effective date of this order should be the date hereof because there is an immediate need for this relief.

IT IS ORDERED that:

1. Morley Truck Lines, Inc. is authorized to perform the transportation shown in Appendix A attached hereto and by this reference made a part hereof at not less than the rates set forth therein.

2. The authority granted herein shall expire one year after the effective date of this order unless sooner cancelled, modified or extended by further order of the Commission.

The effective date of this order is the date hereof.

Dated at San Francisco, California, this 21st day of JUNE, 1977.
