Case No. 5436
Petition for Modification
No. 251
(Filed May 4, 1977)

OPINION AND ORDER

Minimum Rate Tariff 6-B (MRT 6-B) names minimum rates and rules for the transportation of petroleum and petroleum products in bulk in tank truck equipment by petroleum contract carriers. By this petition, California Trucking Association seeks to extend, for a one year period, the expiration date governing the Special Monthly Vehicle Unit Volume Tender Rates in Item 523 of MRT 6-B.

Petitioner states that, since its inception, usage of the incentive rates in this item have been mutually beneficial to shippers and carriers, but a full and proper evaluation of these rates has not yet been possible.

The petition was listed on the Commission's Daily Calendar of May 5, 1977. No objection to the granting of the petition has been received.

In the circumstances, the Commission finds that petitioner's proposal is reasonable to the extent hereinafter indicated and the resulting rates and charges will be just, reasonable and nondiscriminatory minimum rates and charges for the aforementioned transportation. The involved tariff item will be made permanent as procedures are available to petitioner and other interested parties in the event that they may desire to

modify or cancel this item in the future. A public hearing is not necessary. The Commission concludes that the petition should be granted as set forth in the ensuing order.

IT IS ORDERED that:

1. Minimum Rate Tariff 6-B (Appendix A to Decision 82350, as amended) is further amended by incorporating therein, to become effective August 1, 1977, Second Revised Page 43-A and Third Revised Page 43-B attached hereto and by this reference made a part hereof.

2. Common carriers subject to the Public Utilities Act, to the extent that they are subject also to Decision 82350, as amended, are hereby authorized to establish in their tariffs the amendments necessary to conform with the further adjustments ordered herein.

3. Tariff publications authorized to be made by common carriers as a result of this order may be made effective not earlier than the fifth day after the effective date of this order and may be made effective on not less than five days' notice to the Commission and to the public if filed not later than sixty days after the effective date of the minimum rate tariff pages incorporated in this order.

4. Common carriers, in establishing and maintaining the amendments authorized hereinabove, are hereby authorized to depart from the provisions of Section 461.5 of the Public Utilities Code to the extent necessary to adjust long- and short-haul departures now maintained under outstanding authorizations; such outstanding authorizations are hereby modified only to the extent necessary to comply with this order; and schedules containing the amendments published under this authority shall make reference to the prior orders authorizing long- and short-haul departures and to this order.

5. In all other respects, Decision 82350, as amended, shall remain in full force and effect.

The effective date of this order shall be twenty days after the date hereof.

Dated at San Francisco, California, this 28th day of JUNE, 1977.
