Application No. 57494  
(Filed August 1, 1977)

OPINION AND ORDER

Applicant is a public utility warehouseman for the storage of general commodities in the County of Los Angeles. The rates, rules and regulations governing applicant's operations are contained in Western Motor Tariff Bureau, Inc., Agent, Warehouse Tariff No. 1, Cal. P.U.C. No. 35.

Applicant requests authority to increase its rates and charges by eleven percent. The requested rate increase has been determined by applicant without consultation or agreement with any other warehouseman.

Applicant alleges that its present rates do not yield sufficient revenue to allow it to conduct its warehouse operations at a profit.

Applicant's rates were last adjusted pursuant to authority granted by Decision 84840 dated August 26, 1975 in Application 55488.

Applicant further alleges that additional revenue is required because of increased costs in all phases of operation, the most significant being the increased cost of plant and clerical labor.

Exhibit B, attached to the application, contains revenue and expense data for the test year ended December 31, 1976 together with adjustments to reflect the proposed increase in revenue and expenses should the application be granted. The exhibit discloses that during the test year applicant sustained a loss of \$21,192 and an operating ratio of 107 percent. Had the sought rates been in effect during the test year applicant would have sustained a loss of \$3,457 and an operating ratio of 101 percent.

Notice of the proposed increase was sent to each of applicant's storers. No objection to the granting of the application has been received.

FINDINGS

1. Applicant's rates were last adjusted by Decision 84840 dated August 26, 1975, in Application 55488.
2. Since applicant's rates were last adjusted it has experienced increases in operating expenses, the most significant being the increased cost of plant and clerical labor.
3. Under the increase sought herein applicant estimates it will realize additional revenue of \$34,456 and an operating ratio of 101 percent.
4. The proposed increases in applicant's rates and charges have been shown to be justified.
5. A public hearing is not necessary.

IT IS ORDERED that:

1. Swift Transportation Company, D.B.A. South Bay Public Warehouse is authorized to establish the increased rates proposed in Application 57494. Tariff publications authorized to be made as a result of this order shall be filed not earlier than the effective date of this order and may be made effective not earlier than one day after the effective date of this order on not less than one day's notice to the Commission and to the public.
