Decision No. 88192 DEC 6 1977

ORIGINAL

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Petition of
USE CORPORATION for an order or
orders establishing a certification
program providing for the direct
attachment of customer-owned
equipment to the telephone system.

Application No. 53586
(Filed September 14, 1972)

Order of Dismissal

USE Corporation (USE) seeks an order of the Commission to (1) establish standards for certification and inspection of customer provided telecommunication equipment, (2) direct telephone utilities to file necessary tariffs to implement certification, and (3) authorize USE to act as a certifying agent.

By Decision No. 84364 dated April 22, 1975 and amended by Decision No. 84461 dated May 20, 1975 in Case No. 9625, we adopted General Order No. 138 (GO 138) establishing a certification program for the interconnection of customer provided terminal equipment to the telecommunication network. Included in the general order are the standards and requirements for certification as requested by USE.

The adoption of GO 138 makes granting this application unnecessary. The application should be dismissed.

A-53586 ka

IT IS ORDERED that Application No. 53586 is dismissed.

The effective date of this order shall be twenty days after the date hereof.

Dated at San Francisco, California, this 6th
day of DECEMBER, 1977.
