Application of GREYHOUND LINES, INC.,
for authority to operate bus service
between Chico, California; Paradise,
California and the junction of
California Highway 191 and California

Application No. 57304

SUPPLEMENTAL OPINION AND ORDER

By Decision 87571, dated July 12, 1977, Greyhound Lines, Inc., was authorized to extend its service, transporting passengers and express shipments on an experimental basis between Chico and Paradise.

Ordering Paragraph 4 of the decision stated that: "The operating authority herein granted shall terminate six months after the effective date of this order unless otherwise extended upon an appropriate request therefor."

On December 9, 1977 the Commission staff received a written request from Greyhound Lines, Inc., dated December 7, 1977, to provide permanent regular service. The carrier alleges that it has evaluated the operations during the experimental period and has found a need for a regular service. The carrier exemplified its position by stating that it has generated revenue in the amount of \$13,490 in ticket sales and \$6,035 in express shipments for the first four months of operations.

The Commission finds that public convenience and necessity require the permanent service to Paradise. The request should be granted.

IT IS ORDERED that:

1. Appendix A of Decision 55893, as heretofore amended, is further amended by incorporating Eleventh Revised Page 3 attached hereto, in revision of Tenth Revised Page 3.
2. Within thirty days after the effective date of this order, Greyhound Lines, Inc., shall file a written acceptance of the amended certificate granted.
