Decision No. 88807

ORIGINAL

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Application of Coastal Transfer Company for authority to deviate from certain minimum rates pursuant to Section 3666 of the California Public Utilities Code for transportation performed for automobile distribution warehouses.

Application No. 57703

ORDER DENYING REHEARING

California Trucking Association and Auto Purchasing Agency, Inc. have filed petitions for rehearing of Decision No. 88414. Two Coastal Transfer Company letters amending Application No. 57703 were inadvertently placed in the correspondence file; these letters are now entered in the record as Exhibits A and B. The Commission has considered each and every allegation contained therein and is of the opinion that no good cause for granting the requested relief has been shown; therefore,

IT IS ORDERED that rehearing or reconsideration of Decision No. 88414 is denied.

Dated at San Francisco, California, this 2nd day of MAY, 1978.

*I dissent.
I would grant rehearing.
