Case No. 5432
Petition for Modification
No. 1017
(Filed April 11, 1978)

## OPINION AND ORDER

Minimum Rate Tariff 2 (MRT 2) names minimum rates and rules for the statewide transportation of general commodities by highway carriers. By this petition, California Trucking Association requests that the Commission extend until May 31, 1979, the expiration date of certain provisions on Test Permit Shipments of canned goods in Items 320 and 320-1.

According to petitioner MRT 2 prescribes the stretch wrap film method of packaging on canned goods which was established on an experimental basis to enable a period of shipper and carrier use and exposure to the new form of packaging.

Under authority of Test Permit Shipment Number 774-36, issued by the National Classification Board, these provisions are being evaluated on a local and national level for possible inclusion in the National Motor Freight Classification.

Petitioner points out that the provisions have worked well and have been mutually beneficial although more time is needed to allow receipt of additional reports concerning the effectiveness of this new type of packaging.

The petition was listed on the Commission's Daily Calendar of April 13, 1978. No objection to the granting of the petition has been received.

In the circumstances, the Commission finds that petitioner's proposal is reasonable and the resulting rates and charges will be just, reasonable and nondiscriminatory minimum rates and charges for the transportation involved. A public hearing is not necessary. The Commission concludes that the petition should be granted as set forth in the ensuing order.

## IT IS ORDERED that:

- 1. Minimum Rate Tariff 2 (Appendix D to Decision 31606, as amended) is further amended by incorporating therein, to become effective June 1, 1978 Twelfth Revised Page 30-C and Eighteenth Revised Page 31, attached hereto and by this reference made a part hereof.
- 2. Common carriers subject to the Public Utilities Act, to the extent that they are subject also to Decision 31606, as amended, are authorized to establish in their tariffs the amendments necessary to conform with the further adjustment ordered by this decision.
- 3. Tariff publications authorized to be made by common carriers as a result of this order may be made effective not earlier than June 1, 1978, and may be made effective on not less than ten days' notice to the Commission and to the public if filed not later than sixty days after the effective date of the minimum rate tariff pages incorporated in this order.
- 4. Common carriers, in establishing and maintaining the amendments authorized by this order, are authorized to depart from the provisions of Section 461.5 of the Public Utilities Code to the extent necessary to adjust long- and short-haul departures now maintained under outstanding authorizations; such outstanding authorizations are hereby modified only to the extent necessary to comply with this order; and schedules containing the amendments published under this authority shall make reference to the prior orders authorizing long- and short-haul departures and to this order.
- 5. In all other respects, Decision 31606, as amended, shall remain in full force and effect.
