ORIGINAL

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Application)	
of CALIFORNIA DISTRIBUTION CEN-)	Application No. 58059
TERS, INC. for an Increase in)	(Filed May 9, 1978)
Rates.)	

OPINION AND ORDER

Applicant is a public utility warehouseman for the storage of general commodities at Sacramento. The rates, rules and regulations governing applicant's operations are contained in its Warehouse Tariffs Nos. 1 and 4, Cal. P.U.C. Nos. 1 and 4, respectively.

Applicant requests authority to increase its rates and charges by 10 per cent. The requested rate increase has been determined by applicant without consultation or agreement with any other warehouseman.

Applicant alleges that its present rates do not yield sufficient revenue to allow it to conduct its warehouse operations at a reasonable profit.

Applicant's rates were last adjusted pursuant to authority granted by Decision 87823 dated September 7, 1977 in Application 57413.

Applicant further alleges that additional revenue is required because of increased costs in all phases of operation, the most significant being the increased cost of plant and clerical labor.

Exhibit C, attached to the application, contains revenue and expense data for the test year 1977 together with adjustments to reflect the proposed increase in revenue should the application be granted. The exhibit discloses that during the test year applicant realized a profit of \$25,471 after taxes and an operating ratio of 96.3 percent. Had the sought rates been in effect during the test year applicant would have realized a profit of \$55,817 after taxes and an operating ratio of 92.6 percent.

Notice of the proposed increase was sent to each of applicant's storers. No objection to the granting of the application has been received.

FINDINGS

1. Applicant's rates were last adjusted by Decision 87823 dated September 7, 1977, in Application 57413.
2. Since applicant's rates were last adjusted it has experienced increases in operating expenses, the most significant being the increased cost of plant and clerical labor.
3. Under the increase sought herein applicant estimates it will realize additional revenue of \$68,258 and an operating ratio of 92.6 percent.
4. The proposed increases in applicant's rates and charges have been shown to be justified.
5. A public hearing is not necessary.

IT IS ORDERED that:

1. California Distribution Centers, Inc. is authorized to establish the increased rates proposed in Application 58059. Tariff publications authorized to be made as a result of this order shall be filed not earlier than the effective date of this order and may be made effective not earlier than five days after the effective date of this order on not less than five days' notice to the Commission and to the public.

3. The authority granted by this order is subject to the express condition that applicant will never urge before this Commission in any proceeding under Section 734 of the Public Utilities Code, or in any other proceeding, that this opinion and order constitute a finding of fact of the reasonableness of any particular rate or charge.
