

Decision No. 89086 JUL 11 1978

ORIGINAL

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Investigation  
for the purpose of considering and  
determining minimum rates for  
transportation of petroleum and  
petroleum products in bulk, in  
tank truck equipment statewide as  
provided in Minimum Rate Tariff 6-B  
and the revisions or reissues thereof.

Case No. 5436  
Petition for Modification  
No. 265  
(Filed March 14, 1978)

INTERIM OPINION

By this petition, California Trucking Association (CTA) seeks a general 6 percent increase in the rates in Minimum Rate Tariff 6-B (MRT 6-B). MRT 6-B rates were last increased on October 15, 1977 by Decision No. 87882 dated September 20, 1977.

On June 5, 1978, the Commission's Director of Transportation distributed a supplemental advice of participation planned by the Transportation Division. Attached to the advice are two reports<sup>1/</sup> by the Division's Freight Economics Branch which conclude that an overall increase of about 5-1/2 percent is justified. The division contacted 10 major oil companies to solicit their views with respect to ex parte handling of this petition. Objections were made by Texaco, Inc. and Mobil Oil Co. on the basis of the adverse inflationary impact of the increases and the propriety of Commission sanctioned rate increases while carrier-made rates are assertedly under consideration by the Commission.

---

1/ We receive these as Exhibits 265-1 and 265-2 in this matter.

The increases in minimum rates sought herein by CTA (6 percent) and recommended by the staff (5-1/2 percent) are attributable in general to increases in labor expense, Worker's Compensation Insurance, health and welfare contributions, pension contributions, payroll taxes, and cost of fuel. These increased costs became effective on or before July 1, 1978. ✓

We will grant the staff's recommended rate level<sup>2/</sup> on an interim basis and set an early hearing for receipt of evidence on the appropriate permanent level of rates.

Findings

1. The existing level of rates named in MRT 6-B was established by Decision No. 87882 dated September 20, 1977.
2. Highway carriers operating under MRT 6-B have incurred as of July 1, 1978 increases in expenses which are not reflected in the present level of minimum rates.
3. The majority of the traffic at issue is able to move at rates higher than those named in MRT 6-B.
4. A revised level of rates based on the direct wage offset method will result in just, reasonable, and nondiscriminatory minimum rates and should be adopted for this decision.
5. The relief granted herein will increase MRT 6-B rates by about 5-1/2 percent and provide carriers the opportunity to earn about \$4,214,000 in additional revenue on a yearly basis.
6. To the extent that the provisions of MRT 6-B have been found to constitute reasonable minimum rates and rules for common carriers defined in the Public Utilities Code, those provisions as hereinafter adjusted will be reasonable minimum rate provisions for those carriers.
7. Since the carriers have already incurred the cost increases to be offset by the rate increases herein, we will make this order effective on the date signed.

---

<sup>2/</sup> The staff's recommended rate level is based on the direct wage offset method of adjusting rates for changes in labor costs. See Decision No. 87882, supra, for a discussion of the three methods of adjustment.

Conclusions

1. Petition for Modification No. 265 in Case No. 5436 should be granted to the extent provided in the order herein and MRT 6-B amended accordingly.
2. Common carriers should be authorized to depart from the long- and short-haul provisions of Section 461.5 of the Public Utilities Code and the Commission's tariff circular requirements only to the extent necessary to publish the tariff adjustments ordered herein.
3. The effective date of this order should be the date on which it is signed because there is an immediate need for rate relief.

INTERIM ORDER

IT IS ORDERED that:

1. Minimum Rate Tariff 6-B (Appendix A to Decision No. 82350, as amended) is further amended by incorporating therein, to become effective twenty-five days after the date hereof, the revised pages contained in Appendix A attached hereto and by this reference made a part hereof.
2. Common carriers subject to the Public Utilities Act, to the extent that they are subject also to Decision No. 82350, as amended, are hereby directed to establish in their tariffs the increases necessary to conform with the further adjustments ordered by this decision.
3. Common carriers maintaining rates on a level other than the minimum rates for transportation for which rates are prescribed in Minimum Rate Tariff 6-B are authorized to increase such rates by the same amounts authorized by this decision for Minimum Rate Tariff 6-B rates.
4. Common carriers maintaining rates on the same level as Minimum Rate Tariff 6-B rates for the transportation of commodities and/or for transportation not subject to Minimum Rate Tariff 6-B are authorized to increase such rates by the same amounts authorized by this decision for Minimum Rate Tariff 6-B rates.

5. Common carriers maintaining rates at levels other than the minimum rates for the transportation of commodities and/or for transportation not subject to Minimum Rate Tariff 6-B are authorized to increase such rates by the same amounts authorized by this decision for Minimum Rate Tariff 6-B rates.

6. Tariff publications required to be made by common carriers as a result of this order shall be filed not earlier than the effective date of this order and made effective twenty-five days after the date hereof, on not less than ten days' notice to the Commission and to the public; such tariff publications as are authorized shall be made effective not earlier than twenty-five days after the date hereof, on not less than ten days' notice to the Commission and to the public and this authority shall expire unless exercised within sixty days after the effective date of this order.

7. Common carriers are authorized to depart from the Commission's General Order No. 80-A requirements only to the extent necessary in establishing the changes authorized by this order.

8. Common carriers, in establishing and maintaining the rates authorized by this order, are authorized to depart from the provisions of Section 461.5 of the Public Utilities Code to the extent necessary to adjust long- and short-haul departures now maintained under outstanding authorizations; such outstanding authorizations are hereby modified only to the extent necessary to comply with this order; and schedules containing the rates published under this authority shall make reference to the prior orders authorizing long- and short-haul departures and to this order.

9. In all other respects Decision No. 82350, as amended, shall remain in full force and effect.

10. Further hearings in this proceeding will be held before Administrative Law Judge Porter at a time and place to be set.

The effective date of this order is the date hereof.

Dated at San Francisco, California, this 11th  
day of JULY, 1978.

SECTION 1--RULES (Continued)	ITEM
<p style="text-align: center;"><b>LOADING AND/OR UNLOADING OF EQUIPMENT</b></p> <p>1. The rates and charges contained in this tariff include the furnishing by carrier, without extra charge, a maximum of one length of cargo hose equipped with coupling for use in loading and/or unloading the shipment. (See Note 1)</p> <p>2. Provided that a specific request is made prior to dispatch of equipment from the carrier's terminal to load, the following special equipment will be provided at the charges shown:</p> <p>(a) Except as provided in paragraph 3, no more than 5 lengths of cargo hose in addition to that provided in accordance with paragraph 1 will be furnished at an extra charge of \$2.50 per length, except for the first additional length of hose for which no additional charge shall be made. (See Note 1)</p> <p>(b) Except for the service of spreading as provided for in Item 250, rates provided in this tariff do not include pumping service when rendered with carrier's equipment. When pumping service is performed by the carrier, a charge of \$10.00 shall be assessed for pumping service to load carrier's equipment and a charge of \$10.00 shall be assessed for pumping service to unload equipment. In no event shall carrier's total pumping charges exceed \$20.00 per shipment.</p> <p>(c) Special fittings and/or nozzles will be furnished by carrier without extra charge, subject to such equipment being on hand and available.</p> <p>3. In the event that carrier is not notified of the need for special equipment as provided in paragraph 2 prior to dispatch of equipment from its terminal to load or in the event that shipper requests a total of more than 6 lengths of hose (See Note 2) the extra equipment provided for in paragraph 2 will be furnished at the charges provided for therein plus the following additional charges for pickup and delivery of the extra equipment:</p> <p>(a) \$15.05 per hour or fraction thereof will be assessed for driver time involved in making pickup and delivery of the extra equipment. Such time shall be computed from the time that driver is dispatched from carrier's terminal until his return thereto.</p> <p>(b) 19 1/2 cents per mile will be assessed for actual vehicle mileage traveled in effecting pickup and delivery of the extra equipment provided for in paragraph 2. Said mileage shall include but not be limited to, all mileages traveled to and from carrier's terminal.</p> <p>(c) Carrier will furnish shipper with an itemized record showing hours and mileage upon which charges are based.</p> <p>4. In no event shall any provisions of this item be construed to supersede or to be in lieu of provisions otherwise specifically provided for in this tariff.</p> <p>NOTE 1.--A length of cargo hose shall be not less than 12 feet nor more than 20 feet in length.</p> <p>NOTE 2.--The furnishing by carrier of more than 6 lengths of cargo hose shall be subject to such extra hose being on hand and available.</p>	170

SECTION 4--VEHICLE UNIT RATES (Continued)													ITEM
SPECIAL MONTHLY VEHICLE UNIT VOLUME TENDER RATES													
(1) The rates provided in this item apply only when transportation is performed subject to and in accordance with the provisions of this item, and apply when carrier's unit(s) of equipment is (are) used to transport commodities as described in Rate Groups A, B, C or I of Item 30, from one or more of the following points: Chico, Sacramento or Stockton to points in California located within 250 miles of these origins.													
(2) The provisions of this item apply only when prior to the transportation of the property the consignor has requested verbally or in writing that transportation be performed under the provisions of this item and has elected a special monthly volume tender and charges are prepaid; provided that if requested verbally, the consignor shall place a confirming written request in the United States mail the same day as verbally requested. (For form of agreement see Item 530.)													
(3) Rates for transportation will be based upon the minimum gallonage tendered by the consignor during the monthly volume tender period and will be determined as follows:

## SECTION 4--VEHICLE UNIT RATES (Continued)

ITEM

## SPECIAL MONTHLY VEHICLE UNIT VOLUME TENDER RATES "PLAN B"

NOTE 1.--In the application of rates provided in this item, shippers and consignees must have their premises available to carriers to permit loading and unloading in an order that will allow carrier to maintain a twenty-four (24) hour a day schedule.

NOTE 2.--As used in this Item a "30-day tender" shall mean 720 consecutive hours.

NOTE 3.--Carrier is not obligated to assign more than one unit of carrier's equipment to haul the total gallonage offered for transportation; such unit of carrier's equipment to contain no meters nor pumps. However, carrier agrees that each unit furnished for the transportation services provided for in this item will comply with local, state and federal environmental regulations applicable within the geographical scope of the provisions of this item. (See Note 4).

NOTE 4.--Shipments which require pumps or meters will be accepted and shall be rated under the provisions of Item 400 of this tariff. The charges of such shipments may be used to make up the minimum charge requirements of this item.

NOTE 5.--All shipments must be tendered and loaded within the 720 consecutive hour period. A shipment loaded but not delivered within the 720 hour consecutive period will be completed and charged under the provisions of this item.

NOTE 6.--Mileage applicable in connection with this item shall be computed in accordance with Item 150.

NOTE 7.--Carrier will allow a total of one and one-quarter (1 1/4) hours as free time for the completion of loading and unloading. A charge of \$4.50 for each fifteen (15) minutes (or fraction thereof) shall be assessed for the time carrier's equipment is detained through no fault of the carrier to complete loading or unloading in excess of the free time specified above.

NOTE 8.--When transportation is performed under the provisions of this item, the following rules will not apply:

- Item 160 - Demurrage or Detention Charges
- Item 210 - Issuance of Shipping Documents
- Item 190 - Minimum Charge, except when transported subject to Item 400 pursuant to provisions of Note 4.
- Item 290 - Vapor Recovery and/or Bottom Loading Equipment.

NOTE 9.--Transportation charges shall be assessed by computing mileage from point of origin to point of destination which shall be determined in accordance with the method provided in the governing distance table (see Item 150).

NOTE 10.--Transportation charges shall be assessed upon units of carrying capacity as follows:

Commodities (As described in Item 30) Rate Group	Minimum Gallons Per Unit of Carrier's Equipment
A	9,000
B	8,750
C	7,950

NOTE 11.--Rates provided in this item are subject to a minimum charge of \$6,448.00 per 30 day tender. Minimum charge shall be exclusive of any accessorial service charges which may be assessed.

(H) Expires with January 31, 1979.
