CRIGINAL

Decision No. 8956

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Investiga-)
tion for the purpose of consid-)
ering and determining minimum)
rates for transportation of)
sand, rock, gravel and related)
items in bulk, in dump truck)
equipment between points in)
California as provided in Mini-)
mum Rate Tariff 7-A and the
revisions or reissues thereof.)

Case No. 5437
Petition for Modification
No. 303
(Filed September 5, 1978)

OPINION AND ORDER

Minimum Rate Tariff 7-A (MRT 7-A) names minimum rates and rules for the transportation of rock, sand, gravel and other specified commodities by dump truck within northern and southern territories of California. By this petition Jack L. Walton, an individual doing business as Walton Trucking, seeks to include crude trona in the list of commodities contained in Item 40 of MRT 7-A.

Crude trona is an evaporite mineral deposit found in the lake bed of Owens Lake. Crude trona is used in the market as an alkalyzing agent. An informal staff opinion apprised the petitioner that crude trona was considered as "ore" for rating purposes.

Petitioner, having transported this commodity for the previous 15 years, seeks to have crude trona established as a commodity listed in Item 40 of MRT 7-A. The petitioner seeks this relief because the staff determination (ore) resulted in higher shipping charges being assessed the shipper.

Publishing crude trona in Item 40 would re-establish the rates at the levels assessed over the past years during which time petitioner has participated as the only carrier engaged in this traffic. Crude trona is an unprocessed material with the same transportation characteristics when transported in dump truck equipment as the present commodities listed in Item 40. The addition of crude trona

to the tariff item will result in restoring the freight charges to the level assessed on the traffic prior to the staff's opinion that crude trona was an "ore". These charges were reasonable minimum rates for the movement of the involved traffic in for-hire transportation.

The petition was listed on the Commission's Daily Calendar of September 6, 1978. No objection to the granting of the petition has been received.

In the circumstances, the Commission finds that petitioner's proposal is reasonable and the resulting minimum rates and charges will be just, reasonable and nondiscriminatory minimum rates and charges for the transportation involved. A public hearing is not necessary. The Commission concludes that the petition should be granted as set forth in the ensuing order.

IT IS ORDERED that:

- 1. Minimum Rate Tariff 7-A (Appendix B to Decision 82061, as amended) is further amended by incorporating therein, to become effective thirty-nine days after the date hereof, the Fifth Revised Page 3 and Eighth Revised Pages 8 and 9 attached hereto and by this reference made a part hereof.
- 2. Common carriers subject to the Public Utilities Act, to the extent that they are subject also to Decision 82061, as amended, are hereby authorized to establish in their tariffs the amendment necessary to conform with the further adjustment ordered by this decision.
- 3. Tariff publications authorized to be made by common carriers as a result of this order may be made effective not earlier than the effective date of this order and made effective thirty-nine days after the date hereof, on not less than five days' notice to the Commission and to the public.
- 4. Common carriers, in establishing and maintaining the amendments authorized by this order, are authorized to depart from the provisions of Section 461.5 of the Public Utilities Code to the extent necessary to adjust long- and short-haul departures now

C. 5437, Pet. 303 - FS

maintained under outstanding authorizations; such outstanding authorizations are hereby modified only to the extent necessary to comply with this order; and schedules containing the amendments published under this authority shall make reference to the prior orders authorizing long- and short-haul departures and to this order.

5. In all other respects, Decision 82061, as amended, shall remain in full force and effect.

The effective date of this order shall be thirty days after the date hereof.

Dated at San Francesco, California, this 77 day of OCTOBER , 1978.
