convenience and necessity under)
General Order No. 131 for a 230-kv)
Transmission Line from Applicant's)
Geysers Generation to Applicant's)
Lakeville Substation.)
_____)
(Electric))

Application No. 56302
(Filed March 1, 1976)

ORDER OF DISMISSAL

Pacific Gas and Electric Company filed this application for a certificate of public convenience and necessity to construct a 230 kV Transmission Line from the Geysers to Lakeville. Since the filing of the application, and as a result of a Superior Court proceeding in Sacramento County, jurisdiction for siting of the line has been lodged with the State Energy Resources Conservation and Development Commission (ERCDC). No action may be taken by this Commission until the ERCDC rules on the siting of the line.

Since no action can be taken by this Commission until conclusion of the ERCDC proceedings, and since the present filing by applicant may require amendment to conform with the determination of the ERCDC, there is no reason to continue this proceeding in its present state of suspense.

A.56302 ai

Therefore, IT IS ORDERED that the application herein is dismissed without prejudice to Pacific Gas and Electric Company filing a new application at some future time.

The effective date of this order shall be thirty days after the date hereof.

Dated at San Francisco, California, this 19th day of DECEMBER, 1978.
