Decision No. 92367 NOV 4 1980

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

Application of GENERAL TELEPHONE COMPANY OF CALIFORNIA, a corporation, for authority to increase certain intrastate rates and charges for telephone service.

Application No. 59132
(Filed November 15, 1979)

Investigation on the Commission's own motion into the rates, tolls, rules, charges, operations, costs, separations, practices, contracts, service, and facilities of GENERAL TELEPHONE COMPANY OF CALIFORNIA, a California corporation; and of THE PACIFIC TELEPHONE AND TELEGRAPH COMPANY, a California corporation; and of all the telephone corporations listed in Appendix A, attached hereto.

OII No. 62
(Filed December 18, 1979)

ORDER CORRECTING DECISION NO. 92366

Typographical errors appear in Decision No. 92366 dated October 22, 1980, which should be corrected.

Pursuant to Resolution No. A-4661,

IT IS ORDERED that:

1. The first sentence on page 4 under the heading "Synopsis of Decision" is corrected to read as follows:

We are granting General an increase in customer billing of \$91.7 million on an annual basis to produce a gross revenue increase of 97.5 million, which affords it an opportunity to earn a 10.39 percent return on its telephone plant investment of about \$2 billion.

2. The last paragraph on page 127 is corrected to read as follows:

Our adopted tariff changes total \$75.0 million of the needed \$91.7 million to achieve the rate of return authorized. Consequently, the difference of \$16.7 million will be made by decreasing the existing negative surcharge of 7.28 percent to a negative 2.99 percent.

3. Finding 7 on page 158 reading as follows:

General can conduct studies to obtain the necessary data concerning the types and quantities of key system common and line equipment in service and utilize the data for the basis of a proposed rate structure in its next general rate increase application.

is renumbered as Finding 6.

4. Finding 34 on page 162 is corrected to read as follows:

The staff's recommendation that the existing billing surcharge be revised to balance the proposed rate design to achieve the overall revenue requirements is reasonable and should be adopted. The difference between the above enumerated adopted tariff changes and the increased revenue requirement after settlements and uncollectibles of \$97.5 million is \$16.7 million which should be reflected in the revised surcharge equal to a negative 2.99 percent.

5. Ordering Paragraph 4 on page 169 reading as follows:

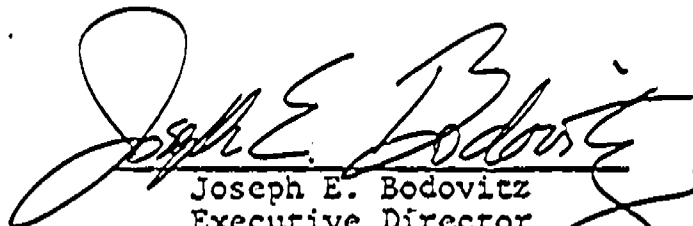

General shall file with the Commission staff a copy of its annual report, required by the U. S. District Court for the District of Hawaii with respect to the International Telephone and Telegraph Company Consent

Decree. Such information is to be used for
internal staff purposes only.

is renumbered as Ordering Paragraph 4A.

The effective date of this order is the date hereof.

Dated November 4, 1980, at San Francisco, California.

Joseph E. Bodovitz
Executive Director
Public Utilities Commission
State of California
