Application No. 59977
(Filed September 30, 1980)

O P I N I O N

This is an application in which Custom Truck Service, Inc. (Custom), a California corporation, seeks a certificate of public convenience and necessity to operate as a highway common carrier for the transportation of general commodities in the Los Angeles Basin Territory.

A copy of the application was served on the California Trucking Association. Notice that it was filed appeared in the Commission's Daily Calendar. There have been no protests to the application. The Commission makes the following findings and conclusions.

Findings of Fact

1. A public hearing is not necessary in this matter.
2. Custom presently holds a highway contract carrier permit issued by this Commission under File No. T-131182.
3. Applicant has 12 units of operative equipment which include five tractors and seven trailers.
4. Custom has a net worth of \$24,000. Its gross operating revenues for the 90 days prior to April 17, 1980 were \$12,000.

5. By virtue of its contract carrier operations, Custom is familiar with the needs and requirements of shippers in the Los Angeles Basin Territory.

6. Custom has the ability, including financial ability, to conduct the proposed operations.

7. Custom has received numerous requests from shippers to render service as a highway common carrier in the Los Angeles Basin Territory.

8. Public convenience and necessity require that the application be granted.

9. It can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment.

Conclusion of Law

The application should be granted as set forth in the ensuing order.

Applicant is placed on notice that operative rights, as such, do not constitute a class of property which may be capitalized or used as an element of value in rate fixing for any amount of money in excess of that originally paid to the State as the consideration for the grant of such rights. Aside from their purely permissive aspect, such rights extend to the holder a full or partial monopoly of a class of business. This monopoly feature may be modified or canceled at any time by the State, which is not in any respect limited as to the number of rights which may be given.

O R D E R

IT IS ORDERED that:

1. A certificate of public convenience and necessity is granted to Custom Truck Service, Inc., a corporation, authorizing it to operate as a highway common carrier, as defined in Section 213 of the Public Utilities Code, between the points set forth in Appendix A of this decision.

2. In providing service pursuant to the authority granted by this order, applicant shall comply with the following service regulations. Failure to do so may result in cancellation of the authority.

- (a) Within thirty days after the effective date of this order, applicant shall file a written acceptance of the certificate granted. Applicant is placed on notice that if it accepts the certificate it will be required, among other things, to comply with the safety rules administered by the California Highway Patrol and the insurance requirements of the Commission's General Order No. 100-Series.
- (b) Within one hundred twenty days after the effective date of this order, applicant shall establish the authorized service and amend or file tariffs, in triplicate, in the Commission's office.
- (c) The tariff filings shall be made effective not earlier than thirty days after the effective date of this order on not less than thirty days' notice to the Commission and the public, and the effective date of the tariff filings shall be concurrent with the establishment of the authorized service.
- (d) The tariff filings made pursuant to this order shall comply with the regulations governing the construction and filing of tariffs set forth in the Commission's General Order No. 80-Series.

- (e) Applicant shall maintain its accounting records on a calendar year basis in conformance with the applicable Uniform System of Accounts or Chart of Accounts as prescribed or adopted by this Commission and shall file with the Commission, on or before April 30 of each year, an annual report of its operations in such form, content, and number of copies as the Commission, from time to time, shall prescribe.
- (f) Applicant shall comply with the requirements of the Commission's General Order No. 84-Series for the transportation of collect on delivery shipments. If applicant elects not to transport collect on delivery shipments, it shall make the appropriate tariff filings as required by the General Order.

The effective date of this order shall be thirty days after the date hereof.

Dated FEB 4 1981, at San Francisco, California.
