Case No. 10299
(Filed March 29, 1977)

ORDER OF DISMISSAL

By letter to the Commission dated March 4, 1981, the attorney for complainants informed the Commission that complainants request that the Commission dismiss this proceeding without prejudice and terminate the temporary cease and desist order in Decision No. 90661 issued August 14, 1979. The letter indicates that complainants are satisfied that the present owner of the water system is making efforts to live up to commitments to furnish adequate service. Complainants indicate they may wish to reinstitute complaint proceedings; therefore, they ask that the complaint be dismissed without prejudice.

Good cause appearing, IT IS ORDERED that:

1. Interim Decision No. 90661 is rescinded.

2. The complaint in Case No. 10299 is dismissed without prejudice.
The effective date of this order shall be thirty days after
the date hereof.

Dated APR 21 1981, at San Francisco,
California.
