 Application 60599
 (Filed May 28, 1981)

O P I N I O N

By this application G & S Industries, Inc. (G & S) seeks authority to transfer its participation from Transport Business Service, Inc. Agent, (Transport) Local Freight Tariff 1, Cal. P.U.C. 1, to Pacific Coast Tariff Bureau (PCTB), Local Freight Tariff 409, Cal. P.U.C. 30. Both tariffs name rates on cement, in bulk or in packages.

According to applicant, it has determined that it would be in its best interest to transfer to the cement tariff of PCTB, and a number of advantages would accrue as a result.

Due to inherent differences between the tariff issued by Transport and the tariff issued by PCTB, increases would result from the transfer, but in no event would the increase exceed one percent of G & S's annual California intrastate revenue.

G & S states that this proposal is not considered to be a major action significantly affecting energy efficiency within the meaning of Sections 3502.1 and 3502.2 of the Public Utilities Code.

The application was listed on the Commission's Daily Calendar of June 1, 1981. No objection to the granting of the application has been received.

Findings of Fact

1. Increases resulting from the proposal are minor and justified.
2. The following order has no reasonably foreseeable impact upon the energy efficiency of highway carriers.
3. A public hearing is not necessary.

Conclusion of Law

The application should be granted as set forth in the order.

O R D E R

IT IS ORDERED that:

1. G & S Industries, Inc. is authorized to have its participation canceled from the cement tariff issued by Transport Business Service, Inc., Agent and to have its participation added to the cement tariff published by Pacific Coast Tariff Bureau Inc., Agent, as specifically proposed in the application.

2. Tariff publications authorized to be made as a result of this order shall be filed not earlier than the effective date of this order and may be made effective not earlier than five days after the effective day of this order on not less than five days' notice to the public.

3. The cancellation of applicant's participation in the cement tariff of Transport Business Service, Inc., shall be concurrent with the effective date of the adoption of Pacific Coast Tariff Bureau's tariff publication.

4. The authority granted shall expire unless exercised within 90 days after the effective date of this order.

This order is effective 30 days from today.

Dated AUG 4 1961, at San Francisco, California.
