Decision: 93777 DEC 1 1981

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

Application of Pacific Gas and Electric Company for the Establishment of Tariff Schedule G-55A - Cogeneration Natural Gas Service and a Standard Form Contract to be Used with Schedule G-55A and for Addition of a Definition of Cogeneration to Rule 1.

Application 59459
(Filed February 19, 1980)

Application of Southern California Gas Company to establish a new rate schedule for cogeneration; to add definitions related to cogeneration to Rule 1; to revise Rule 23 to provide a special priority for cogeneration; and to provide an addendum for special gas service to the standard customer contract.

Application 59684
(Filed May 21, 1980)

In the Matter of the Application of San Diego Gas & Electric Company for Approval to Include Cogeneration Schedule G-CEG in Its Gas Department Tariffs.

Application 59690
(Filed May 21, 1980)

ORDER CORRECTING CLERICAL ERROR

Decision (D.) 92792 dated March 17, 1981 established a natural gas tariff rate for electrical generation by cogenerators.

By inadvertent error Finding 16 incorrectly referenced our investigation establishing natural gas priorities as Case 9462. To avoid confusion this error should be corrected and Finding 16 revised.

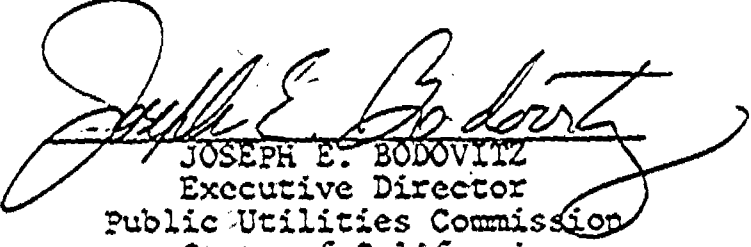

IT IS ORDERED that Finding 16 of D. 92792 is revised as follows:

16. By D. 92704 (February 18, 1981) in Case 9642 we adopted a P-3A priority for cogeneration facilities and said we would describe which cogeneration volumes would qualify for higher priorities. It is reasonable that all natural gas used by cogenerators in the sequential production of electricity and steam, heat, or useful work should qualify for higher priorities.

This order is issued under Resolution A-4661.

This order is effective today.

Dated December 1, 1981, at San Francisco, California.

JOSEPH E. BODOVITZ
Executive Director
Public Utilities Commission
State of California
