Application 60996  
(Filed October 19, 1981)

O P I N I O N

John Elvis Hunter (applicant), an individual, proposes to provide home-to-work service between points in Vacaville, Fairfield, and Vallejo, on the one hand, and Alameda Naval Air Station, on the other hand.

Applicant proposes to charge \$75.00 per month for Vacaville service, \$69.00 per month for Fairfield service, \$58.00 per month for Vallejo service, and \$5.00 per day for service for all locations.

Applicant alleges that he has sufficient financial resources to provide the proposed services. A copy of applicant's financial report is attached to the application.

Applicant proposes to use two 39-passenger buses and one 37-passenger bus.

Home-to-work commuter buses play an important role in providing increased public transportation and helping to relieve the energy shortage. New services, such as proposed in this application, should be encouraged and one way to do so is by expediting their authorization. This order should be effective the date of signature. On the basis of the information furnished in the application, we find that public convenience and necessity require that the proposed service be authorized for a one-year term, subject to certain conditions as set forth in more detail in the following order.

The application was listed on the Commission's Daily Calendar of October 20, 1981. The Commission's Transportation Division staff has reviewed the application and recommends that in the absence of protest or request for public hearing, it be granted by ex parte order. No protest has been received.

O R D E R

IT IS ORDERED that:

1. A temporary certificate of public convenience and necessity is granted to John Elvis Hunter, authorizing him to

operate as a passenger stage corporation as defined in PU Code Section 226 between the points and over the routes set forth in Appendix A of this decision, for the transportation of passengers and their baggage only.

2. Applicant shall:

- a. File a written acceptance of this certificate within 30 days after this order is effective.
- b. Establish the authorized service and file tariffs and timetables within 120 days after this order is effective.
- c. State in his tariffs and timetables when the service will start; allow at least 10 days' notice to the Commission; and make timetables and tariffs effective 10 or more days after this order is effective.
- d. Comply with General Orders Series 79, 98, 101, and 104, and the California Highway Patrol safety rules.
- e. Maintain accounting records in conformity with the Uniform System of Accounts.

3. The authority granted by this order shall remain in effect for a period of one year from the effective date of this order or until modified by further order of this Commission.

4. Applicant is placed on notice that if he accepts this expedited authorization that he waives his rights to invoke the protective provisions of PU Code Section 1032 as related to applications of other parties for similar authority for the period this authorization is in effect.

5. The fares proposed in this application are authorized.  
This order is effective today.

Dated DEC 15 1981, at San Francisco, California.
