

Decision 95-09-038 September 7, 1995

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Application of Hi-Rim Communications, Inc. for a certificate of public convenience and necessity to provide telecommunications services within the State of California.

Application 95-04 (021)  
(Filed April 12, 1995)

ORIGINAL

As part of its application, as supplemented, Hi-Rim

Hi-Rim Communications, Inc. (applicant), a business, incorporated under the laws of the State of Nevada, and holding a certificate of qualification to do business in California, seeks a certificate of public convenience and necessity (CPCN) under Public Utilities (PU) Code § 1001 to permit it to resell interLATA and intraLATA telephone service in California.

By Decision (D.) 84-01-037 (14 CPUC2d 317 (1984)) and later decisions we authorized interLATA entry generally. However, we limited the authority conferred to interLATA service, and we subjected the applicants to the condition that they not hold themselves out to the public to provide intraLATA service. BY D. 94-09-065, we authorized competitive intraLATA services effective January 1, 1995, for carriers meeting specified criteria.

The Commission has established two major criteria for determining whether a CPCN should be granted. An applicant who is

California is divided into ten Local Access and Transport Areas (LATAs) of various sizes, each containing numerous local telephone exchanges. "InterLATA" describes services, revenues, and functions that relate to telecommunications originating in one LATA and terminating in another. "IntraLATA" describes services, revenues, and functions that relate to telecommunications originating and terminating within a single LATA.

Decision 95-09-038 September 7, 1995

a switchless reseller<sup>2</sup> must demonstrate that it has a minimum of \$25,000 of cash or cash equivalent (as described in D.91-10-041, Appendix A, Paragraph 5.1), reasonably liquid and readily available to meet the firm's start-up expenses. Such applicants shall also document any deposits required by local exchange companies or interexchange carriers (IECs) and demonstrate that they have additional resources to cover all such deposits. (D.93-05-010.) In addition, an applicant is required to make a reasonable showing of technical expertise in telecommunications or a related business.

As part of its application, as supplemented, Hi-Rim provided an income statement and balance sheet demonstrating that it has more than \$25,000 consisting of a cash equivalent that satisfies our criteria for being reasonably liquid and readily available to meet the applicant's needs.

The applicant has provided information on its key managers indicating their education and experience. It can be summarized as follows:

Thomas A. Mills is presently the president of Hi-Rim Communications. His prior experience includes founding and serving as president of a company which regularly transmitted information and transmitted on a regular basis via cable television and satellite receivers to end users. He also founded and acted as CEO of an insurance corporation. The Commission has established two major criteria for determining whether a CPCN should be granted. An applicant who is

<sup>2</sup> D.93-05-010 defines a switchless reseller as a nondominant interexchange carrier (NDIEC) with the following characteristics: it uses the switch of another carrier; it usually, but not always, uses access circuits that the underlying carrier purchases from an LEC; it provides service in its own name, and its customers view it as their telephone company for interLATA and interstate calls. D.92-06-069 noted that it is possible to control, operate or manage telephone lines without owning them. The decision also notes that resellers which do not own or directly operate their own telephone wires may still have plant which is owned, controlled, operated, and/or managed in order to facilitate communication by telephone.

Wayne J. Godbout is Hi-Rim's vice president of operations. He will be responsible for the day-to-day operations of switching sales and networking. Mr. Godbout's prior experience includes serving as an officer for three nondominant telecommunications carriers since 1983. He has worked with certain carriers in the past.

We will authorize the interLATA and intraLATA services that applicant seeks to provide.

**Findings of Fact**

1. Applicant served a copy of the application upon over 200 telephone corporations with which it is likely to compete.

2. A notice of the filing of the application appeared in the Daily Calendar on April 21, 1995.

3. No protests have been filed.

4. By prior Commission decisions we authorized competition in providing interLATA telecommunications service but generally barred those offering such service from holding out to the public the provision of intraLATA service.

5. By D.94-09-065, we authorized competitive intraLATA services effective January 1, 1995, for carriers meeting specified criteria.

6. Applicant has demonstrated that it has a minimum of \$25,000 of cash equivalent, including a certificate of deposit, reasonably liquid and readily available to meet its start-up expenses.

7. Applicant has also represented that its underlying carriers require no deposits.

8. Applicant's technical experience consists of two employees with a combined experience of over 15 years in founding and managing telecommunications and other businesses.

9. Applicant has submitted as a supplement to its application, a complete draft of applicant's initial tariff which complies with the requirements established by the Commission including prohibitions on unreasonable deposit requirements.

11. Applicant has represented that none of its management personnel was previously associated with an NDIEO that filed for bankruptcy or went out of business.

12. Since no facilities are to be constructed, it can be seen with certainty that the proposed operation will not have a significant effect upon the environment.

13. The Commission has routinely granted NDIECs, such as applicant, an exemption from Rule 18(b) where no construction is involved to the extent that the rule requires applicants to serve a copy of its application on cities and counties in the proposed service area and to the extent that it requires applicants to provide a conformed copy of all exhibits attached to applicant's filed application to potential competitors.

14. Exemption from the provisions of PU Code §§ 8164830 has been granted to other resellers (See, e.g., D 86-10-007 and D.88-12-076) in providing intrastate telecommunications service. Conclusions of Law

1. Applicant has the financial ability to provide the proposed service.

2. Applicant has made a reasonable showing of technical expertise in telecommunications.

3. Public convenience and necessity require the interLATA and intrastate services to be offered by applicant.

4. Applicant is subject to the following conditions:

a. The current 3.0% surcharge applicable to service rates of intrastate toll and intrastate interLATA toll to fund the Universal Lifeline Telephone Service (PU Code § 879; D.94-09-065);

The current 0.3% surcharge on gross intrastate interLATA revenues to fund the California Relay Service and Communications devices fund (PU Code § 2881; Resolution T-15254);

The user fee provided in PU Code §§ 431-435, which is 0.1% of gross including prohibitions on unreasonable deposit requirements.

intrastate Revenue for the 1995-96 fiscal year (Resolution M-4777), and

The California High Cost Fund fee of 0.15% (D.94-09-065).

5. Applicant should be exempted from Rule 18(b)'s requirement of service of the application on cities and counties in the proposed service area and service of all exhibits attached to this application on potential competitors.

6. The application should be granted to the extent set forth below.

7. Because of the public interest in competitive interLATA and intraLATA services, the following order should be effective immediately.

**ORDER**  
IT IS ORDERED that:

1. A certificate of public convenience and necessity is granted to Hi-Rim Communications, Inc., (applicant) to operate as a reseller of the interLocal Access and Transport Area (LATA) and, to the extent authorized by Decision (D.) 94-09-065, intraLocal Access and Transport Area (LATA) telecommunication services offered by communication common carriers in California. 2. Applicant shall file a written acceptance of the certificate granted in this proceeding.

3. a. Applicant is authorized to file with this Commission tariff schedules for the provision of interLATA and intraLATA service. Applicant may not offer interLATA and/or intraLATA service until tariffs are on file. Applicant's initial filing shall be made in accordance with General Order (GO) 96-A, excluding Sections IV, V, and VI, and shall be effective not less than 1 day after filing.

b. Applicant is a nondominant interexchange carrier (NDIEC). The effectiveness of its future tariffs is subject to the schedules set forth in Ordering Paragraph 5 of D.90-08-032, as modified by D.91-12-013 and D.92-06-034.

"5(d) All NDIECs are hereby placed on notice that their California tariff filings will be processed in accordance with the following effectiveness schedule:

"a. Inclusion of FCC-approved rates for interstate services in California public utilities tariff schedules shall become effective on one (1) day's notice.

"b. Uniform rate reductions for existing services shall become effective on five (5) days' notice.

"c. Uniform rate increases, except for minor rate increases, for existing services shall become effective on thirty (30) days' notice, and shall require bill inserts, a message on the bill itself, or first class mail notice to customers of the pending increased rates.

"d. Uniform minor rate increases, as defined in D.90-11-029 for existing services shall become effective on not less than 5 working days' notice. Customer notifications is not required for such minor rate increases.

"e. Advice letter filings for new services and for all other types of tariff revisions, except changes in text not affecting rates or relocations of text in the tariff schedules, shall become effective on forty (40) days' notice.

"f. Advice letter filings merely revising the text or location of text material which do not cause an increase in any rate or charge

shall become effective on not less than five (5) days' notice."

4. Applicant may deviate from the following provisions of GO 96-A: (a) paragraph II.C. (1) (b), which requires consecutive sheet numbering and prohibits the reuse of sheet numbers; and (b) paragraph II.C. (4), which requires that "a separate sheet or a series of sheets should be used for each rule." Tariff filings incorporating these deviations shall be subject to the approval of the Commission Advisory and Compliance Division (CACD) Telecommunications Branch. Tariff filings shall reflect all fees and surcharges to which applicant is subject as reflected in Conclusion of Law 4.

5. Applicant shall file as part of its initial tariff, after the effective date of this order and consistent with Ordering Paragraph 3, a service area map.

6. Applicant shall notify this Commission in writing of the date interLATA service is first rendered to the public within 5 days after service begins and again within 5 days of when intralATA service begins.

7. Applicant shall keep its books and records in accordance with the Uniform System of Accounts specified in Title 47, Code of Federal Regulations, Part 32.

8. In the event the books and records of the applicant are required for inspection by the Commission or its staff, applicant shall either produce such records at the Commission's offices or reimburse the Commission for the reasonable costs incurred in having Commission staff travel to applicant's office.

9. Applicant shall file an annual report, in compliance with GO 104-A, on a calendar-year basis using the information request form developed by the CACD Auditing and Compliance Branch and contained in Attachment A.

10. Applicant shall ensure that its employees comply with the provisions of PU Code § 2889.5 regarding solicitation of customers.

11. The certificate granted and the authority to render service under the rates, charges, and rules authorized will expire if not exercised within 12 months after the effective date of this order.

12. The corporate identification number assigned to applicant is U-5501-0 which shall be included in the caption of all original filings with this Commission and in the titles of other pleadings filed in existing cases.

13. Within 60 days of the effective date of this order the applicant shall comply with PU Code § 708, Employee Identification Cards, and notify the Chief of CACD's Telecommunications Branch in writing of its compliance.

14. Applicant is exempted from the provisions of PU Code §§ 816-830.

15. In response to the applicant's request for waiver applicant is exempted from Rule 18(b) of the Commission's Rules of Practice and Procedure to the extent that the rule requires applicant to serve a copy of its application on the cities and counties it proposes to operate in and to the extent that the rule requires applicant to serve a copy of all exhibits attached to its application on potential competitors.

16. If applicant is 90 days or more late in filing an annual report or in remitting the fees listed in Conclusion of Law 4, CACD shall prepare for Commission consideration a resolution that revokes the applicant's certificate of public convenience and necessity, unless the applicant has received the written permission of CACD to file or remit late.

9. Applicant shall file an annual report in compliance with GO 104-A, on a calendar-year basis using the information request form developed by the CACD Auditing and Compliance Branch and contained in Attachment A.

10. Applicant shall ensure that its employees comply with the provisions of PU Code § 2889.2 regarding solicitation of customers.

17. The application is granted, as set forth above.  
This order is effective today.  
Dated September 7, 1995, at Los Angeles, California.
