

Decision 96-09-071 September 20, 1996

SEP 20 1996

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA
 In the Matter of the Application of PNG Telecommunications, Inc. for a certificate of public convenience and necessity to provide interLATA telecommunications services within the State of California.

ORIGINAL

Application 96-05-029 (Filed May 15, 1996)

OPINION

PNG Telecommunications, Inc. (applicant), a Ohio corporation qualified to do business in California, seeks a certificate of public convenience and necessity (CPCN) under Public Utilities (PU) Code § 1001 to permit it to resell interLATA telephone services in California¹ as a nondominant switchless telecommunications carrier.

By Decision (D.) 84-01-037 (14 CPUC2d 317 (1984)) and later decisions we authorized interLATA entry generally. However, we limited the authority conferred to interLATA service, and we subjected the applicants to the condition that they not hold themselves out to the public to provide intralATA service. Subsequently, by D.94-09-065, we authorized competitive intralATA services effective January 1, 1995, for carriers meeting specified criteria.

The Commission has established two major criteria for determining whether a CPCN should be granted. An applicant who is...

¹ California is divided into ten Local Access and Transport Areas (LATAs) of various sizes, each containing numerous local telephone exchanges. "InterLATA" describes services, revenues, and functions that relate to telecommunications originating in one LATA and terminating in another. "IntralATA" describes services, revenues, and functions that relate to telecommunications originating and terminating within a single LATA.

a switchless reseller² must demonstrate that it has a minimum of \$25,000 of cash or cash equivalent (as described in D.91-10-041, 41 CPUC2d 505 at 520 (1991)), reasonably liquid and readily available to meet the firm's start-up expenses. Such applicants shall also document any deposits required by local exchange companies or interexchange carriers (IECs) and demonstrate that they have additional resources to cover all such deposits. (D.93-05-010, 49 CPUC2d 197 at 208 (1993).) In addition, an applicant is required to make a reasonable showing of technical expertise in telecommunications or a related business.

As part of its application, applicant provided a copy of its latest financial statement under seal to demonstrate that it has the financial ability to provide the telecommunications services it seeks a CPCN for.

Applicant filed a motion for a limited protective order for its financial statement, citing that it contains confidential information and would do harm to applicant if revealed. No opposition to the motion has been filed. Applicant's motion for a protective order on its financial statement was granted pursuant to a June 4, 1996 Administrative Law Judge (ALJ) ruling. As part of this protective order, applicant's financial statement is to remain

² D.93-05-010 defines a switchless reseller as a nondominant interexchange carrier (NDIEC) with the following characteristics: it uses the switch of another carrier; it usually, but not always, uses access circuits that the underlying carrier purchases from an LEC; it provides service in its own name, and its customers view it as their telephone company for interLATA and interstate calls. D.92-06-069 noted that it is possible to control, operate, or manage telephone lines without owning them. The decision also notes that resellers which do not own or directly operate their own telephone wires may still have plant which is owned, controlled, operated and/or managed in order to facilitate communication by telephone.

under seal for a period of one year from the date of the ruling, except upon further order of the Commission or ALJ.

Applicant's sealed financial data demonstrates that applicant has more than the \$25,000 minimum cash requirement to provide the interLATA and intraLATA telecommunications services it proposes to offer in California. It satisfies our criteria for being reasonably liquid and readily available to meet the applicant's needs.

Applicant is currently authorized to provide telecommunications services in Ohio, Texas, Wisconsin, Massachusetts, Florida, Oregon, New York, Idaho, Montana, Illinois, Kansas, and South Dakota. In addition, applicant has provided information on its president, Bernard Stevens, indicating his technical training and experience as discussed on page 4 of the application.

We will authorize the interLATA and intraLATA services that applicant seeks to provide.

Findings of Fact

1. Applicant served a copy of the application upon 330 telephone corporations with which it is likely to compete.

2. A notice of the filing of the application appeared in the Commission's Daily Calendar on May 15, 1996.

3. No protests have been filed.

4. No protest to applicant's July 8, 1996 motion to include intraLATA authority as part of its application has been filed.

5. No opposition to the motion for confidentiality of the applicant's financial documents has been filed.

6. A hearing is not required.

7. By prior Commission decisions, we authorized competition in providing interLATA telecommunications services but generally barred those offering such service from holding out to the public the provision of intraLATA service.

By D.94-09+065, we authorized competitive intralATA services effective January 1, 1995 for carriers meeting specified criteria.

9. Applicant has demonstrated that it has a minimum of \$25,000 of cash readily available to meet its start-up expenses.

10. Applicant's technical experience consists of its president with over 20 years of management in the electronics and telecommunications industries.

11. Applicant has submitted with its application a complete draft of applicant's initial tariff which complies with the requirements established by the Commission.

12. Since no facilities are to be constructed, it can be seen with certainty that the proposed operation will not have a significant effect upon the environment.

13. The Commission has routinely granted nondominant interexchange carriers, such as applicant, an exemption from Rule 18(b) where no construction is involved to the extent that the rule requires applicant to serve a copy of its application on cities and counties in the proposed service area.

14. Exemption from the provisions of PU Code §§ 1816-830 has been granted to other resellers. (See, e.g., D.86-10-007 and D.88-12-076.)

15. The transfer or encumbrance of property of nondominant carriers has been exempted from the requirements of PU Code § 851 whenever such transfer or encumbrance serves to secure debt.

Conclusions of Law

1. Applicant has the financial ability to provide the proposed service.

2. Applicant has made a reasonable showing of technical expertise in the telecommunications business.

3. Public convenience and necessity require the intralATA and intralATA services to be offered by applicant.

Applicant is subject to the public utility laws of California.

a. The current 3.2% surcharge applicable to all intrastate services except for those excluded by D.94-09-065, as modified by D.95-02-050, to fund the Universal Lifeline Telephone Service (PU Code § 879; Resolution T-15799, November 21, 1995);

b. The current 0.36% surcharge applicable to all intrastate services except for those excluded by D.94-09-065, as modified by D.95-02-050, to fund the California Relay Service and Communications Devices Fund (PU Code § 2881; Resolution T-15801, October 5, 1995);

c. The user fee provided in PU Code §§ 431-435, which is 0.11% of gross intrastate revenue for the 1996-1997 fiscal year (Resolution M-4782); and

d. The current 0.27% surcharge applicable to all intrastate services except for those excluded by D.94-09-065, as modified by D.95-02-050, to fund the California High Cost Fund (PU Code § 739.30; Resolution T-15826, December 20, 1995).

5. Applicant should be exempted from Rule 18(b) requirement of service of the application on cities and counties in the proposed service area and service of all exhibits attached to this application on potential competitors.

6. Applicant should be exempted from PU Code §§ 816-830.

7. Applicant should be exempted from PU Code § 851 when the transfer or encumbrance serves to secure a debt.

8. The application should be granted to the extent set forth below.

All notices are hereby placed on notice that their California tariff filings will be processed in accordance with the following effectiveness schedule:

a. Inclusion of FCC-approved rates for intrastate services in California public utilities tariff schedules

9. Because of the public interest in competitive interLATA and intraLATA services, the following order should be effective immediately.

ORDER

IT IS ORDERED that:

1. A certificate of public convenience and necessity is granted to PNG Telecommunications, Inc. (applicant) to operate as a reseller of the InterLocal Access and Transport Area (LATA) and, to the extent authorized by Decision (D.) 94-09-065, intraLATA telecommunication service offered by communication common carriers in California.

2. Applicant shall file a written acceptance of the certificate granted in this proceeding.

3. a. Applicant is authorized to file with this Commission tariff schedules for the provision of interLATA and intraLATA services. Applicant may not offer interLATA or intraLATA services until tariffs are on file.
