Decision 96-10-008 October 9, 1996

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Application of ~~an~~ 200-~~an~~ ~~an~~ Intercontinental Communications Group, Inc. for a Certificate of Public Convenience and Necessity) Application 96-06-024 (Filed June 14, 1996) to do business as a Reseller of Telecommunications Services Within the State of California

ORIGINAL

IN 199-01-19, it is ordered as follows: Hearings to take place on October 9, 1996 at 10:00 AM.

O P I N I O N

Intercontinental Communications Group, Inc. (applicant), a Florida corporation, authorized to do business in California as ICG Long Distance Inc., seeks a certificate of public convenience and necessity (CPCN) under Public Utilities (PU) Code § 1001 to permit it to resell interLATA and intralATA telephone service in California.¹ Applicant also seeks exemption from the requirements of PU Code §§ 816-830, dealing with the issuance of stocks and other evidences of ownership and bonds, notes, and other evidences of indebtedness.

By Decision (D.) 84-01-037 (14 CPUC2d 317 (1984)) and later decisions, we authorized interLATA entry generally. However, we limited the authority conferred to interLATA service; and we

¹ California is divided into ten Local Access and Transport Areas (LATAs) of various sizes, each containing numerous local exchange telephone exchanges. "InterLATA" describes services, revenues, and functions that relate to telecommunications originating in one LATA and terminating in another. "IntralATA" describes services, revenues, and functions that relate to telecommunications originating and terminating within a single LATA.

subjected the applicants to the condition that they not hold themselves out to the public to provide intrALATA service. Subsequently, by D.94-09-065, we authorized competitive intrALATA services effective January 1, 1995, for carriers meeting specified criteria.²

The Commission has established two major criteria for determining whether a CPCN should be granted. An applicant who is a switchless reseller² must demonstrate that it has a minimum of \$25,000 of cash or cash equivalent (as described in D.91-10-041, 41 CPUC2d 505 at 520 (1991)), reasonably liquid and readily available to meet the firm's start-up expenses. Such applicants shall also document any deposits required by local exchange companies or interexchange carriers (IECs) and demonstrate that they have additional resources to cover all such deposits. (D.93-05-010, 49 CPUC2d 197 at 208 (1993).) In addition, an applicant is required to make a reasonable showing of technical expertise in telecommunications or a related business.

As part of its application, applicant provided a statement of assets, liabilities and equity-income tax basis as of December 31, 1995, and related statement of revenue and expenses-income tax basis of Intertel, Inc., the former corporate name of Intercontinental Communications Group, Inc. This indicates that

² D.93-05-010 defines a switchless reseller as a nondominant interexchange carrier (NDIEC) with the following characteristics: it uses the switch of another carrier; it usually, but not always, uses access circuits that the underlying carrier purchases from an LEC; it provides service in its own name, and its customers view it as their telephone company for interLATA and interstate calls. D.92-06-069 notes that it is possible to control, operate, manage telephone lines without owning them. The decision also notes that resellers which do not own or directly operate their own telephone wires may still have plant which is owned, controlled, but operated, and/or managed in order to facilitate communication by bus telephone. AT&T argues a switchless reseller has switching

applicant has more than \$25,000 consisting of cash and cash equivalent. It satisfies our criteria for being reasonably liquid and readily available to meet the applicant's needs.

Applicant has provided information on its key managers indicating their education, technical training, and experience. It can be summarized as follows:

Michael P. Brown, President: Mr. Brown graduated from the University of Detroit Mercy School of Law in 1994 and obtained his BA from the University of Michigan. As President and Chief Executive Officer, Mr. Brown is responsible for setting the business direction of the company and ensuring its financial strength. In addition to his legal background, Mr. Brown was the President of Brownie Communications, Inc., a privately held telecommunications consulting firm which worked with long distance carriers on hospitality, apartment and residential services and systems.

Douglas C. Brough, Executive Vice President - Sales: Mr. Brough is responsible for sales and marketing of all of the services of Intercontinental Communications Group (ICLD). Prior to joining ICLD in 1994, Mr. Brough held the position of Executive Vice President of Integrated Telemanagement Services (Atlanta, Georgia) and President of Fiber-Optic Networks Communications (San Diego, California). Mr. Brough also worked as the Director of Sales and later as General Manager of U.S. Fiberline, where he was responsible for sales, marketing agreements and existing and new business negotiations. Mr. Brough holds a BA from Towson State University.

William J. Gallo III, Director of Operations: Mr. Gallo began his telecommunications career in 1991 with Voiceware Systems, Inc. (West Palm Beach, Florida), a switch manufacturer and manufacturer of debit platforms. In 1994, he joined ICLD and is responsible for operations and information management systems, including billing, rating and reports. Mr. Gallo's background also includes advertising. He was the owner of Specialty Shoppe, Inc., an agency serving the hospitality and banking industries.

Reffrom 1987-1991 on Mr. Gallo attended Florida and graduated
Atlantic University.

We will authorize the interLATA and intralATA services in
that applicant seeks to provide at hearing and thereafter.

Findings of Fact

1. Applicant served a copy of the application upon 97 of the
telephone corporations with which it is likely to compete.

2. A notice of the filing of the application appeared in the
Daily Calendar on June 20, 1991 and was AB and heard at

3. No protests have been filed.

4. A hearing is not required.

5. By prior Commission decisions, we authorized competition
in providing interLATA telecommunications service but generally
barred those offering such service from holding out to the public
the provision of intralATA service. This is not the case here.

6. By D. 94-09-065, we authorized competitive intralATA
services effective January 1, 1995, for carriers meeting specified
criteria.

7. Applicant has demonstrated that it has at minimum of
\$25,000 of cash and cash equivalent reasonably liquid and readily
available to meet its start-up expensesthere is no gross

8. Applicant's technical experience consists of three
employees with experience of over several years in the
telecommunications.

9. Applicant has submitted with its application a complete
draft of applicant's initial tariff which complies with the
requirements established by the Commission including prohibitions
on unreasonable deposit requirements.

10. Applicant has represented that no one associated with or
employed by applicant was previously related to Tarzwell
interexchange carrier that filed for bankruptcy or went out of
business.

- 5 -

11. Since no facilities are to be constructed, it can be seen with certainty that the proposed operation will not have a significant effect upon the environment.

12. The Commission has routinely granted nondominant interexchange carriers, such as applicant, an exemption from Rule 18(b) to the extent that the rule requires applicant to serve a copy of its application on cities and counties in the proposed service area and to the extent that it requires applicant to provide a conformed copy of all exhibits attached to applicant's filed application to potential competitors.

13. Exemption from the provisions of PU Code §§ 816-830 has been granted to other resellers. (See, e.g., D.86-104007 and (super D.88-124076)) and since the services being sought are not unique to resellers, this exemption is appropriate.

14. The transfer or encumbrance of property of nondominant interexchange carriers has been exempted from the requirements of PU Code § 851 whenever such transfer or encumbrance serves to secure debt. (See D.85-11-044.)

Conclusions of Law

1. Applicant has the financial ability to provide the proposed service if required by law and to cause to be filed.

2. Applicant has made a reasonable showing of technical expertise in telecommunications or in a related business.

3. Public convenience and necessity require the interLATA and intralATA services to be offered by applicant.

4. Applicant is subject to:

- a. The current 3.2% surcharge applicable to all intrastate services except for those excluded by D.94-09-065, as modified by D.95-02-050, to fund the Universal Lifeline Telephone Service (PU Code § 879, promulgated November 21, 1995); and (AT&T) hereby agrees to release its portion of the Universal Lifeline Telephone Service to the public.
- b. The current 0.36% surcharge applicable to all intrastate services except for those services excluded by D.94-09-065, as modified by D.95-02-050, to fund the California Relay Service and Communications Devices Fund (PU

base of the PU Code § 2881; Resolution T-15801, October 5, 1995);
 is even more if the user fee is applied only to those intrastate services.
 c. The user fee provided in PU Code in section 431-435, which is 0.11% of gross
 intrastate revenue for the 1996-1997 fiscal year, and for
 each subsequent year (Resolution M-4782); and, application of
 section d. The current 0.2% surcharge applicable to
 telephone and all intrastate services except for those subject to
 excluded by D.94-09-065, as modified by
 D.95-02-050, to fund the California High Cost
 Cost Fund (PU Code § 739-30; Resolution No. 6, effective
 December 20, 1995).
 and 5f8. Applicant should be exempted from Rule 18(b)(8) requirement of service of the application on cities and counties in the proposed service area and service of all exhibits attached to this application on potential competitors, to relevant rate.
 138 6. Applicant should be exempted from PU Code §§ 816-830 (x)(6)
 38 7. Applicant should be exempted from PU Code § 851 when the transfer or encumbrance serves to secure debt.

8. The application should be granted to the extent set forth below.

9. Because of the public interest in competitive interLATA and intralATA services, the following order should be effective immediately: each order shall be no more than 10 days after the date of this order.

IT IS ORDERED that, pursuant to § 853, the following:

- A certificate of public convenience and necessity is granted to Intercontinental Communications Group, Inc., doing business as ICG Long Distance Inc. (appellant) to operate as a reseller of interLocal Access and Transport Area (interLATA) and, to the extent authorized by Decision (b)(6) 94-09-065, intralocal Access and Transport Area (intralATA) telecommunication services offered by communication common carriers in California.

as necessary after notice and hearing, b"

2. Applicant shall file a written acceptance of the certificate granted in this proceeding.

3. a. Applicant is authorized to file with this Commission tariff schedules for the provision of interLATA and intralATA service. Applicant may not offer interLATA and/or intralATA service until tariffs are on file. Applicant's initial filing shall be made in accordance with General Order (GO) 96-A, excluding Sections IV, V, and VI, and shall be effective not less than 1 day after filing. Applicant shall comply with the provisions in its tariffs.

b. Applicant is a nondominant interexchange carrier (NDIEC). The effectiveness of its future tariffs is subject to the schedules set forth in Ordering Paragraph 5 of D.90-08-032 (37 CPUC2d 130 at 158), as modified by D.91-12-013 (42 CPUC2d 220 at 231) and D.92-06-034 (44 CPUC2d 617 at 618):

"a. Inclusion of FCC-approved rates for new services and existing services shall become effective on one (1) day after the Commission receives the following effectiveness schedule:

(d) "a. Uniform rate reductions for new services shall become effective on one (1) day after the Commission receives the following effectiveness schedule:

"b. Uniform rate reductions for existing services shall become effective on five (5) days' notice.

"c. Uniform rate increases, except for minor rate increases, for existing services shall become effective on thirty (30) days' notice, and shall require bill inserts, a message on the bill itself, or first class mail notice to customers of the pending increased rates.

"d. Uniform minor rate increases, as defined in D/90-11-029, for existing services shall become effective on not less than five (5) working days' notice. Customer service notifications is not required for such minor rate increases.

"e. Advice letter filings for new services and for all other types of tariff revisions, except changes in text not affecting rates or relocations of text in the tariff schedules, shall become effective on forty (40) days' notice.

revised signature "Advice letter filings merely for the revision of text material which do not cause an increase in any rate or charge, shall become effective on not less than five (5) days' notice."

4. Applicant may deviate from the following provisions of GO 96-A:

- (a) paragraph II.C.(1)(b), which requires consecutive sheet numbering and prohibits the reuse of sheet numbers, and
- (b) paragraph II.C.(4), which requires that "a separate sheet or series of sheets should be used for each rule." Tariff filings incorporating these deviations shall be subject to the approval of the Commission's Telecommunications Division. Tariff filings shall reflect all fees and surcharges to which applicant is subject, as reflected in Conclusion of Law.

5. Applicant shall file as part of its initial tariff, after the effective date of this order and consistent with Ordering Paragraph 3, a service area map.

6. Prior to initiating service, applicant shall provide the Commission's Consumer Services Division with the applicant's designated contact person(s) for purposes of resolving consumer complaints and the corresponding telephone number. This information shall be updated if the name or telephone number changes or at least annually.

(7) "Applicant" shall notify this Commission in writing of the date interLATA service is first rendered to the public within 5 days after service begins and again within 5 days of when intraLATA service begins to inform the above referenced corporation to make arrangements to

8. Applicant shall keep its books and records in accordance with the Uniform System of Accounts specified in Title 47, Code of Federal Regulations, Part 32, (d) at such cost as you estimate.

9.2. In the event the books and records of the applicant are required for inspection by the Commission or its staff, applicant shall either produce such records at the Commission's offices or reimburse the Commission for the reasonable costs incurred in respect of having Commission staff travel to applicant's office, no notice being given.

Section 10.16. The Applicant shall file an annual report in compliance with GO-104-A, on a calendar year basis using the information requested on form developed by the Commission staff and contained in Attachment T. Applications and filings will undergo staff review and notice before being

Applicant shall ensure that its employees comply with the provisions of Public Utilities (PU) Code § 2889.5 regarding deviation solicitation of customers.

12. The certificate granted and the authority to render service under the rates, charges, and rules authorized will expire if not exercised within 12 months after the effective date of this order.

13. Applicant shall send a copy of this decision to concerned local permitting agencies not later than 30 days from today.

14. The corporate identification number assigned to applicant
is U-5683-C which shall be included in the caption of all original
filings with this Commission, and in the titles of other pleadings
filed in existing cases.

15. Within 60 days of the effective date of this order, applicant shall comply with PU Code § 708, Employee Identification Cards, and notify the Director of the Telecommunications Division in writing of its compliance.

16. The applicant is exempted from the provisions of PU Code §§ 816, 830, by virtue of section 17 of the above AT&T filing date. Article 17, i. Applicant is exempted from PU Code § 851 for the transfer or encumbrance of property, whenever such transfer or encumbrance serves to secure debt. This order will stand except that .8

18. In response to the applicant's request for waiver, the applicant is exempted from Rule 18(b) of the Commission's Rules of Practice and Procedure to the extent that the rule requires the applicant to serve a copy of its application on the cities and/or counties it proposes to operate in; and to the extent that the rule requires applicant to serve a copy of all exhibits attached to its application on potential competitors. (over) This order will stand until October 19, 1996. If applicant is 90 days or more late in filing an annual report or in remitting the fees listed in Conclusion of Law 14, the Telecommunications Division shall prepare for Commission, for consideration a resolution that revokes the applicant's certificate of public convenience and necessity, unless the applicants have received the written permission of the Telecommunications Division to file or remit late.

19. The application is granted, as set forth above. At this time Application 96-06-024 is closed, subject to future review and to this order is effective today at midnight bestowes date. 21
