Decision 96-12-007 December 9, 1996

ORIGINAL

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Application of Quintelco Communications, Inc. for a Certificate of Public Convenience and Necessity for Authorization as a Reseller of Interexchange Telecommunications Services

exchange companies or interexchange carriers that demonstrate that they have additional resources to cover all such

OPINION

Quintelco, Inc. (applicant), a Delaware corporation of technical expertise in telecommunications or a related business

qualified to do business in California as Quintelco Communications, Inc., seeks a certificate of public convenience and necessity (CPCN) under Public Utilities (PU) Code § 1001 to permit it to resell interexchange telephone services in California.

By Decision (D.) 84-01-037 (14 CPUC2d 317 (1984)) and later decisions we authorized interLATA entry generally.

However, we limited the authority conferred to interLATA service; and we subjected the applicants to the condition that they not hold themselves out to the public to provide intraLATA service.

Subsequently, by D. 94-09-065, we authorized competitive intraLATA

California is divided into Local Access and Transport Areas (LATAs) of various sizes, each containing numerous local telephone exchanges. InterLATA describes services, revenues and functions that relate to telecommunications originating in one LATA and terminating in another. IntraLATA describes the services, revenues, and functions that relate to telecommunications originating and terminating within a single LATA.

services effective January 1, 1995, for carriers meeting specified criteria.

The Commission has established two major criteria for determining whether a CPCN should be granted. An applicant who is a switchless reseller² must demonstrate that it has a minimum of \$25,000 in cash or cash equivalent (as described in D.91-10-041, 841 CPUC2d (505 at 520 (1991))) reasonably liquid and readily available to meet the firm's start-up expenses. Such applicants shall also document any deposits required by local exchange companies or interexchange carriers (IECs) and demonstrate that they have additional resources to cover all such deposits. (D.93-05-010, 49 CPUC2d 197 at 208 (1993)). In addition, an applicant is required to make a reasonable showing of technical expertise in telecommunications or a related business.

As part of its September 6, 1996 supplement to its application, applicant provided a balance sheet and income statement of applicant's parent company, Quintel Entertainment, Inc., to demonstrate that applicant's parent company has more than \$25,000 of liquid cash available for applicant's proposed operations. Applicant's parent company is committed to providing the necessary financial resources to applicant. It satisfies our

and we subjected the applicants to the condition that they not

hold themselves out to the public to provide ~~interstate~~ services.
² D.93-05-010 defines a switchless reseller as a nondominant interexchange carrier (NDIEC) with the following characteristics: it uses the switch of another carrier; it usually, but not always, uses access circuits that the underlying carrier purchases from an LEC; it provides service in its own name; and its customers view it as their telephone company for interLATA and interstate calls. D.92-06-069 noted that it is possible to control, operate, or manage telephone lines without owning them. The decision also notes that resellers which do not own or directly operate their own telephone wires may, still have plants which is owned, controlled, operated, and/or managed in order to facilitate communication by telephone. AT&T

criteria for being reasonably liquid and readily available to meet the applicant's needs.

Applicant has provided information on its Secretary and Senior Vice President Andrew Stollman indicating his technical training and experience as discussed on Page 2 of the application. In addition, applicant has attached a complete draft of its initial California tariff schedules to its application to further substantiate its technical experience.

Applicant possesses the necessary financial and technical expertise to operate as a non-dominant switchless telecommunications carrier. We will authorize the interLATA and intraLATA services that applicant seeks to provide.

Findings of Fact Applicant served a copy of its application upon 316 telephone corporations with which it is likely to compete.

2. A notice of the filing of the application appeared in the Commission's Daily Calendar on July 19, 1996.

Applicant supplemented its application on September 6, 1996.

No protests have been filed. A hearing is not required.

By prior Commission decisions, we authorized competition in providing interLATA telecommunications service but generally barred those offering such service from holding out to the public the provision of intraLATA service.

7. By D.94-09-065, we authorized competitive intraLATA services effective January 17, 1995, for carriers meeting specified criteria.

Applicant has demonstrated that it has a minimum of \$25,000 of cash readily available to meet its start-up expenses.

9. Applicant has the necessary technical experience.

10. Applicant has submitted with its application a complete draft of applicant's initial tariff which complies with the requirements established by the Commission and Applicant.

11. Since no facilities are to be constructed, it can be seen with certainty that the proposed operation will not have a significant effect upon the environment.

12. Applicant has represented that no one associated with or employed by applicant was previously associated with a NDIEO that filed for bankruptcy or went out of business.

13. The Commission has routinely granted NDIECs such as applicant, an exemption from Rule 18(b) where no construction is involved to the extent that the rule requires applicant to serve a copy of its application on cities and counties in the proposed service area and to the extent that it requires applicant to provide a conformed copy of all exhibits attached to applicant's filed application to potential competitors.

14. Exemption from the provisions of PU Code §§ 816-830 has been granted to other resellers. (See, e.g., D:86-10-007 and D:88-12-076.)

15. The transfer or encumbrance of property of nondominant carriers has been exempted from the requirements of PU Code § 851 whenever such transfer or encumbrance serves to secure debt.

(See D:85-11-044.)

Conclusions of Law
