local exchange, access and )  
interexchange services. )

Application 96-05-048  
(Filed May 31, 1996;  
amended September 16, 1996)

OPINION ON MODIFICATION  
OF DECISION 96-11-011

**ORIGINAL**

SpectraNet Anaheim (applicant), a California corporation, filed its Application 96-05-048 for authority to provide facilities-based and resale local exchange telecommunications service as a competitive local carrier (CLC)<sup>1</sup> and resale interexchange intraLocal Access and Transport Area (intraLATA) services, and interLATA services.

By Decision (D.) 96-11-011, applicant was found to have met all of the requirements necessary to obtain a certificate of public convenience and necessity (CPCN) under Public Utilities Code § 1001 to provide its requested services. However, the Ordering Paragraph granting applicant its CPCN inadvertently excluded authority to provide resale local exchange service. Accordingly, D.96-11-011 should be modified to provide applicant with all of the authority it sought in its application.

Findings of Fact

1. Applicant sought authority to provide facilities-based and resale local exchange telecommunications service as a CLC and resale interexchange intraLATA and interLATA services.

<sup>1</sup> A competitive local carrier is a common carrier that is issued a CPCN to provide local exchange telecommunications service for a geographic area specified by such carrier.

2. Although D.96-11-011 found that applicant met all of the requirements necessary to obtain a CPCN to provide its requested services, it inadvertently excluded authority to provide resale local exchange services.

Conclusions of Law

1. D.96-11-011 should be modified to allow applicant to provide all of the services it requested authority for.

2. Because of the public interest in competitive local exchange services, and interexchange services the following order should be effective immediately.

O R D E R

IT IS ORDERED that:

1. Decision (D.) 96-11-011 shall be modified to provide SpectraNet Anaheim authority to resale local exchange services. Ordering Paragraph 1 of D.96-11-011 shall be modified to read as follows:

"1. A certificate of public convenience and necessity is granted to SpectraNet Anaheim (applicant) to operate as a facilities-based and resale competitive local carrier, and resale interexchange interLocal Access and Transport Area (interLATA) and, to the extent authorized by Decision (D.) 94-09-005, intraLocal Access and Transport Area (intraLATA) carrier subject to the terms and conditions set forth below."

2. Application 96-05-048 is closed.  
This order is effective today.  
Dated February 19, 1997, at San Francisco, California.
