O P I N I O N

1. Summary

World Network Communications, Inc. (applicant), a California corporation, seeks a certificate of public convenience and necessity under Public Utilities Code (PU Code) § 1001 to permit it to resell interLATA and intraLATA telephone services in California.<sup>1</sup> Granted.

2. Nature of Application

By Decision (D.) 84-01-037, 14 CPUC2d 317 (1984), and later decisions, we authorized interLATA entry generally. By D.94-09-065, 56 CPUC2d 117 (1994), we authorized competitive intraLATA services effective January 1, 1995. The Commission has established two major criteria for determining whether certificate

<sup>1</sup> California is divided into Local Access and Transport Areas (LATAs) of various sizes, each containing numerous local telephone exchanges. "InterLATA" describes telecommunications service originating in one LATA and terminating in another. "IntraLATA" describes telecommunications service originating and terminating within a single LATA.

should be granted. An applicant that is a switchless reseller<sup>2</sup> must demonstrate that it has a minimum of \$25,000 in cash or cash equivalent available to meet the firm's start-up expenses (D.91-10-041, 41 CPUC2d 505, 520 (1991)), and that it has additional resources to cover deposits required by other telephone carriers (D.93-05-010, 49 CPUC2d 197 (1993)). In addition, an applicant is required to make a reasonable showing of technical expertise.

Applicant is a privately held corporation having two principal owners, Joyce Nagatani, president, and Charles Caradonna, chief financial officer. Applicant states that it will operate as a non-facilities based reseller, providing services primarily to business customers for direct transmission and reception of voice, data and other types of communications. Applicant will provide resale services through such underlying carriers as AT&T Communications of California, Inc., Sprint Communications Company L.P., and Brooks Fiber Properties. The company estimates that it will have 2,000 customers by the end of the first year of operation and 10,000 customers by the end of the fifth year.

A balance sheet and financial information are filed as Exhibit C to the application, and these show current assets that satisfy the financial requirements for new resellers of telecommunications services. Exhibit B to the application describes the experience of the principal owners and shows that each has been involved for more than a decade in the telecommunications business. Nagatani previously was granted authority to provide interLATA services in Decision (D.) 94-09-057, 56 CPUC2d 90. She did not function as a reseller under that grant

<sup>2</sup> In simplified terms, a switchless reseller purchases wholesale telephone capacity from facilities-based carriers and resells these services at retail to its customers. (See Re Tariff Filing Rules for Telecommunications Utilities (1993) 49 CPUC2d 197.)

of authority but continued her business as an agent for another carrier.

Applicant is seeking a certificate as a nondominant interexchange carrier, and it is not an affiliate of a local exchange carriers. Pursuant to the Commission's decision in Re Simplified Registration Process, D.96-09-098 (September 20, 1996), applicant did not attach a draft tariff to the application, attaching instead a statement of proposed rates (Exhibit F). While this was appropriate at the time, a subsequent decision of the Commission (D.96-12-033) reestablished the requirement that a draft tariff be filed with an application. Our order today requires applicant to file its tariff as Advice Letter No. 1 within 30 days of approval of the application.

Applicant requests a partial waiver of Rule 18(b) in order that it need not serve a copy of the application on city and county planning agencies, since applicant will not be constructing any plant or network facilities in the state. Requests of this nature have been granted routinely in the past. (American Telephone Network, Inc. (1992) 43 CPUC2d 380.)

### 3. Discussion

Applicant has demonstrated that it has the financial and business skills necessary to operate reseller services in California. No protests to the application have been filed. We will authorize the interLATA and intraLATA services that applicant seeks to provide, as set forth in our order below.

#### Findings of Fact

1. Applicant served a copy of its application on 411 telecommunications corporations with which it may compete.
2. A notice of the filing of the application appeared in the Daily Calendar on December 11, 1996.
3. No protests have been filed.
4. By prior Commission decisions, we authorized competition in providing interLATA telecommunications service but generally barred those offering such service from holding out to the public the provision of intraLATA service.

5. By D.94-09-065, 56 CPUC2d 117 (1994), we authorized competitive intraLATA services effective January 1, 1995, for carriers meeting specified criteria.

6. Applicant has demonstrated that it has a minimum of \$25,000 in cash available to meet its start-up expenses and any deposits required by other telephone carriers.

7. Applicant has demonstrated that its management possesses the requisite technical experience to operate its service.

8. Applicant has submitted with its application a statement of proposed rates.

9. Since no facilities are to be constructed, it can be seen with certainty that the proposed operation will not have a significant effect upon the environment.

10. The Commission has routinely granted nondominant interexchange carriers such as applicant an exemption from the Rule 18(b) requirement that the application be served on cities and counties in the proposed service area.

11. Exemption from the provisions of PU Code §§ 816-830 has been granted to other resellers. (See, e.g., D.86-10-007, 22 CPUC2d 42 (1986) and D.88-12-076, 30 CPUC2d 145 (1988).)

12. The transfer or encumbrance of property of nondominant carriers has been exempted from the requirements of PU Code § 851 whenever such transfer or encumbrance serves to secure debt. (See D.85-11-044, 19 CPUC2d 206 (1985).)

Conclusions of Law

1. No hearing is required.
2. Applicant has the financial ability to provide the proposed service.
3. Applicant has made a reasonable showing of technical expertise in telecommunications.
4. Public convenience and necessity require the interLATA and intraLATA services to be offered by applicant.
5. Applicant is subject to:

- a. The current 3.2% surcharge applicable to all intrastate services except for those excluded by D.94-09-065 as modified by D.95-02-050 to fund Universal Lifeline Telephone Service (PU Code § 879; Resolution T-15799, November 21, 1995);

- c. The user fee provided in PU Code §§ 431-435, which is 0.11% of gross intrastate revenue for the 1996-1997 fiscal year (Resolution M-4782);

- e. The current 2.87% surcharge applicable to all intrastate services except for those excluded by D.94-09-065, as modified by D.95-02-050, to fund the California High Cost Fund-B (D.96-10-066, p. 191, App. B, Rule 6.F.); and
- f. The current 0.41% surcharge applicable to all intrastate services except for those excluded by D.94-09-065, as modified by D.95-02-050, to fund the California Teleconnect Fund (D.96-10-066, p. 88, App. B, Rule 8.G.).

6. Applicant should be exempted from the Rule 18(b) requirement of service of the application on cities and counties.

7. Applicant should be exempted from PU Code §§ 816-830.

8. Applicant should be exempted from PU Code § 851 when the transfer or encumbrance serves to secure debt.

9. The application should be granted to the extent set forth below.

10. Because of the public interest in competitive interLATA and intraLATA services, the following order should be effective immediately.
