Application 96-12-061  
(Filed December 30, 1996)

O P I N I O N

1. Summary

Wholesale Airtime, Inc. (applicant), a Delaware corporation authorized to do business in California, seeks a certificate of public convenience and necessity under Public Utilities (PU) Code § 1001 to permit it to resell interLATA and intraLATA telephone services in California.<sup>1</sup> Granted.

2. Nature of Application

By Decision (D.) 84-01-037, 14 CPUC2d 317 (1984), and later decisions, we authorized interLATA entry generally. By D.94-09-065, 56 CPUC2d 117 (1994), we authorized competitive intraLATA services effective January 1, 1995. The Commission has established two major criteria for determining whether certification should be granted. An applicant that is a

<sup>1</sup> California is divided into Local Access and Transport Areas (LATAs) of various sizes, each containing numerous local telephone exchanges. "InterLATA" describes telecommunications service originating in one LATA and terminating in another. "IntraLATA" describes telecommunications service originating and terminating within a single LATA.

switchless reseller<sup>2</sup> must demonstrate that it has a minimum of \$25,000 in cash or cash equivalent available to meet the firm's start-up expenses (D.91-10-041, 41 CPUC2d 505 (1991), Appendix A, Paragraph 5.1), and that it has additional resources to cover deposits required by other telephone carriers (D.93-05-010, 49 CPUC2d 197 (1993)). In addition, an applicant is required to make a reasonable showing of technical expertise.

Applicant is now in the business of reselling paging and voicemail services. It acts as an agent for certified long distance carriers and is an authorized sub-agent for LA Cellular and AirTouch. Applicant states that it will offer interLATA and intraLATA services throughout the state, relying on the switches of underlying facilities-based carriers. Applicant has attached a current balance sheet to its application (Exhibit G), along with a certificate of deposit in the amount of \$25,000 (Exhibit I).

Applicant states that it has an experienced management staff. Greg Michaels, president, has been active in the telecommunications field since 1994, focusing on sales and installation. Gary Schofield is vice president of the company. He is a former employee of Pacific Bell and Centex Telemanagement.

Proposed tariffs of applicant, comparable to those of competing carriers, are attached to the application as Exhibit F. Applicant states that that no person associated with the company has been involved in any other telecommunications company that has gone out of business or has filed for bankruptcy.

Applicant requests a partial waiver of Rule 18(b) in order that it need not serve a copy of the application on city and county planning agencies, since applicant will not be constructing

any plant or network facilities in the state. Requests of this nature have been granted routinely in the past. (American Telephone Network, Inc. (1992) 43 CPUC2d 380.)

3. Discussion

Applicant has demonstrated that it has the financial and business skills necessary to operate reseller services in California. No protests to the application have been filed. We will authorize the interLATA and intraLATA services that applicant seeks to provide, as set forth in our order below.

Findings of Fact

1. Applicant served a copy of its application on 362 telecommunications corporations with which it may compete.
2. A notice of the filing of the application appeared in the Daily Calendar on January 8, 1997.
3. No protests have been filed.
4. By prior Commission decisions, we authorized competition in providing interLATA telecommunications service but generally barred those offering such service from holding out to the public the provision of intraLATA service.
5. By D.94-09-065, 56 CPUC2d 117 (1994), we authorized competitive intraLATA services effective January 1, 1995, for carriers meeting specified criteria.
6. Applicant has demonstrated that it has a minimum of \$25,000 in cash available to meet its start-up expenses and any deposits required by other telephone carriers.
7. Applicant has demonstrated that its management possesses the requisite technical experience to operate its service.
8. Applicant has submitted with its application a draft of its initial tariff, and this tariff complies with Commission requirements, including prohibitions on unreasonable deposit requirements.

9. Since no facilities are to be constructed, it can be seen with certainty that the proposed operation will not have a significant effect upon the environment.

10. The Commission has routinely granted nondominant interexchange carriers such as applicant an exemption from the Rule 18(b) requirement that the application be served on cities and counties in the proposed service area.

11. Exemption from the provisions of PU Code §§ 816-830 has been granted to other resellers. (See, e.g., D.86-10-007, 22 CPUC2d 42 (1986) and D.88-12-076, 30 CPUC2d 145 (1988).)

12. No officer of applicant has been involved in any other telecommunications company that has gone out of business or has filed for bankruptcy.

13. The transfer or encumbrance of property of nondominant carriers has been exempted from the requirements of PU Code § 851 whenever such transfer or encumbrance serves to secure debt. (See D.85-11-044, 19 CPUC2d 206 (1985).)

Conclusions of Law

1. No hearing is required.
2. Applicant has the financial ability to provide the proposed service.
3. Applicant has made a reasonable showing of technical expertise in telecommunications.
4. Public convenience and necessity require the interLATA and intraLATA services to be offered by applicant.
5. Applicant is subject to:
  - a. The current 3.2% surcharge applicable to all intrastate services except for those excluded by D.94-09-065 as modified by D.95-02-050 to fund Universal Lifeline Telephone Service (PU Code § 879; Resolution T-15799, November 21, 1995);

- b. The current 0.36% surcharge applicable to all intrastate services except for those excluded by D.94-09-065 as modified by D.95-02-050 to fund the California Relay Service and Communications Devices Fund (PU Code § 2881; Resolution T-15801, October 5, 1995);
  - c. The user fee provided in PU Code §§ 431-435, which is 0.11% of gross intrastate revenue for the 1996-1997 fiscal year (Resolution 4782);
  - d. The current surcharge applicable to all intrastate services except for those excluded by D.94-09-065, as modified by D.95-02-050, to fund the California High Cost Fund-A (PU Code § 739.30; D.96-10-066, pp. 3-4, App. B, Rule 1.C.; set by Resolution T-15987 at 0.0% for 1997 effective February 1, 1997);
  - e. The current 2.87% surcharge applicable to all intrastate services except for those excluded by D.94-09-065, as modified by D.95-02-050, to fund the California High Cost Fund-B (D.96-10-066, p. 191, App. B, Rule 6.F.); and
  - f. The current 0.41% surcharge applicable to all intrastate services except for those excluded by D.94-09-065, as modified by D.95-02-050, to fund the California Teleconnect Fund (D.96-10-066, p. 88, App. B, Rule 8.G.).
6. Applicant should be exempted from the Rule 18(b) requirement of service of the application on cities and counties.
7. Applicant should be exempted from PU Code §§ 816-830.
8. Applicant should be exempted from PU Code § 851 when the transfer or encumbrance serves to secure debt.
9. The application should be granted to the extent set forth below.

10. Because of the public interest in competitive interLATA and intraLATA services, the following order should be effective immediately.
