O P I N I O N

On March 5, 1993, Pacific Gas and Electric Company (PG&E) filed an application for rehearing of Resolution G-3031 which approved PG&E's gas capacity brokering program. PG&E argues the resolution unlawfully denied PG&E the right to broker certain pipeline capacity of Transwestern Pipeline Company. No party protested the application. Subsequently, we addressed this issue in Decision (D.) 93-04-040. This application for rehearing is denied on the basis that the Commission has resolved the matter in another forum.

Finding of Fact

The issue raised in this application was addressed in D.93-04-040.

Conclusion of Law

Application 93-03-012 should be denied.
