Application 96-10-027
(Filed October 18, 1996)

ORIGINAL

O P I N I O N

Clarity Telecom LD Network Services Inc. (applicant or Clarity), a Delaware corporation, authorized to do business in California, seeks a certificate of public convenience and necessity (CPCN) under Public Utilities (PU) Code § 1001 to permit it to resell interLATA and intraLATA telephone services in California as a switchless reseller.¹ Applicant also seeks authority to transfer to itself the California customer base of Executone Information Services, Inc. (Executone), which has authority to resell telecommunications in California. To avoid customer confusion and billing errors, applicant proposes to transfer Executone's customers simultaneously after receipt of requisite approvals in all states in which Clarity seeks authority.

By Decision (D.) 84-01-037 (14 CPUC2d 317 (1984)) and later decisions, we authorized interLATA entry generally. However, we limited the authority conferred to interLATA service; and we

¹ California is divided into ten Local Access and Transport Areas (LATAs) of various sizes, each containing numerous local telephone exchanges. "InterLATA" describes services, revenues, and functions that relate to telecommunications originating in one LATA and terminating in another. "IntraLATA" describes services, revenues, and functions that relate to telecommunications originating and terminating within a single LATA.

subjected the applicants to the condition that they not hold themselves out to the public to provide intraLATA service. Subsequently, by D.94-09-065, we authorized competitive intraLATA services effective January 1, 1995, for carriers meeting specified criteria.

The Commission has established two major criteria for determining whether a CPCN should be granted. An applicant who is a switchless reseller² must demonstrate that it has a minimum of \$25,000 of cash or cash equivalent (as described in D.91-10-041, 41 CPUC2d 505 at 520 (1991)), reasonably liquid and readily available to meet the firm's start-up expenses. Such applicants shall also document any deposits required by local exchange carriers or interexchange carriers (IECs) and demonstrate that they have additional resources to cover all such deposits. (D.93-05-010, 49 CPUC2d 197 at 208 (1993).) In addition, an applicant is required to make a reasonable showing of technical expertise in telecommunications or a related business.

As part of its application, applicant provided an audited balance sheet which indicates that applicant has more than \$25,000 consisting of cash and other assets. These resources satisfy our criteria for being reasonably liquid and readily available to meet the applicant's needs.

² D.93-05-010 defines a switchless reseller as a nondominant interexchange carrier (NDIEC) with the following characteristics: it uses the switch of another carrier; it usually, but not always, uses access circuits that the underlying carrier purchases from an LEC; it provides service in its own name, and its customers view it as their telephone company for interLATA and interstate calls. D.92-06-069 noted that it is possible to control, operate, or manage telephone lines without owning them. The decision also notes that resellers which do not own or directly operate their own telephone wires may still have plant which is owned, controlled, operated, and/or managed in order to facilitate communication by telephone.

Applicant filed motions for protective order for its financial statement and information regarding its customer base stating that the information is confidential and its disclosure would harm applicant. No opposition to the motions has been filed.

Applicant has provided information on its key executives, indicating their education, technical training, and experience. Applicant's Chief Executive Officer has 17 years' experience in the telecommunications industry. Applicant's Vice Presidents also have broad experience in finance and sales in the telecommunications industry.

We will authorize the interLATA and intraLATA services that applicant seeks to provide. We also grant the authority applicant requests to transfer the customer base of Executone to Clarity.

Findings of Fact

1. Applicant served a copy of the application upon the telephone corporations with which it is likely to compete.
2. No protests have been filed.
3. No opposition to the motion for confidentiality of the applicant's financial documents has been filed.
4. A hearing is not required.
5. By prior Commission decisions, we authorized competition in providing interLATA telecommunications service but generally barred those offering such service from holding out to the public the provision of intraLATA service.
6. By D.94-09-065, we authorized competitive intraLATA services effective January 1, 1995, for carriers meeting specified criteria.
7. Applicant has demonstrated that it has a minimum of \$25,000 of cash and other assets that are reasonably liquid and readily available to meet expenses.
8. Applicant's three top executives have extensive experience in the areas of sales, finance, and telecommunications.

9. Applicant has submitted with its application a complete draft of applicant's initial tariff which complies with the requirements established by the Commission including prohibitions on unreasonable deposit requirements.

10. Applicant has represented that no one associated with or employed by applicant was previously associated with an NDIEC that filed for bankruptcy or went out of business.

11. Since no facilities are to be constructed, it can be seen with certainty that the proposed operation will not have a significant effect upon the environment.

12. The Commission has routinely granted NDIECs, such as applicant, an exemption from Rule 18(b) where no construction is involved to the extent that the rule requires applicant to serve a copy of its application on cities and counties in the proposed service area and to the extent that it requires applicant to provide a conformed copy of all exhibits attached to applicant's filed application to potential competitors.

13. Exemption from the provisions of PU Code §§ 816-830 has been granted to other resellers. (See, e.g., D.86-10-007 and D.88-12-076.)

14. The transfer or encumbrance of property of nondominant carriers has been exempted from the requirements of PU Code § 851 whenever such transfer or encumbrance serves to secure debt. (See D.85-11-044.)

Conclusions of Law

1. Applicant has the financial ability to provide the proposed service.

2. Applicant has made a reasonable showing of technical expertise in telecommunications.

3. Public convenience and necessity require the interLATA and intraLATA services to be offered by applicant.

4. Applicant is subject to:

- a. The current 3.2% surcharge applicable to all intrastate services except for those excluded by D.94-09-065, as modified by D.95-02-050, to fund the Universal Lifeline Telephone Service (PU Code § 879; Resolution T-15799, November 21, 1995);
- b. The current 0.36% surcharge applicable to all intrastate services except for those excluded by D.94-09-065, as modified by D.95-02-050, to fund the California Relay Service and Communications Devices Fund (PU Code § 2881; Resolution T-16017, April 9, 1997);
- c. The user fee provided in PU Code §§ 431-435, which is 0.11% of gross intrastate revenue for the 1996-1997 fiscal year (Resolution M-4782);
- d. The current surcharge applicable to all intrastate services except for those excluded by D.94-09-065, as modified by D.95-02-050, to fund the California High Cost Fund-A (PU Code § 739.30; D.96-10-066, pp. 3-4, App. B, Rule 1.C.; set by Resolution T-15987 at 0.0% for 1997 effective February 1, 1997);
- e. The current 2.87% surcharge applicable to all intrastate services except for those excluded by D.94-09-065, as modified by D.95-02-050, to fund the California High Cost Fund-B (D.96-10-066, p. 191, App. B, Rule 6.F.); and
- f. The current 0.41% surcharge applicable to all intrastate services except for those excluded by D.94-09-065, as modified by D.95-02-050, to fund the California Teleconnect Fund (D.96-10-066, p. 88, App. B, Rule 8.G.).

5. Applicant should be exempted from Rule 18(b)'s requirement of service of the application on cities and counties in

the proposed service area and service of all exhibits attached to this application on potential competitors.

6. Applicant should be exempted from PU Code §§ 816-830.

7. Applicant should be exempted from PU Code § 851 when the transfer or encumbrance serves to secure debt.

8. The application should be granted to the extent set forth below.

9. Because of the public interest in competitive interLATA and intraLATA services, the following order should be effective immediately.

O R D E R

IT IS ORDERED that:
