O P I N I O N

SmarTalk TeleServices, Inc. (applicant), a California corporation, seeks a certificate of public convenience and necessity (CPCN) under Public Utilities (PU) Code § 1001 to permit it to resell intraLATA telephone service.<sup>1</sup>

By Decision (D.) 84-01-037 (14 CPUC2d 317 (1984)) and later decisions, we authorized interLATA entry generally. However, we limited the authority conferred to interLATA service; and we subjected the applicants to the condition that they not hold themselves out to the public to provide intraLATA service. Subsequently, by D.94-09-065, we authorized competitive intraLATA services effective January 1, 1995, for carriers meeting specified criteria. Applicant currently holds interLATA authority.

<sup>1</sup> California is divided into ten Local Access and Transport Areas (LATAs) of various sizes, each containing numerous local telephone exchanges. "InterLATA" describes services, revenues, and functions that relate to telecommunications originating in one LATA and terminating in another. "IntraLATA" describes services, revenues, and functions that relate to telecommunications originating and terminating within a single LATA.

The Commission has established two major criteria for determining whether a CPCN should be granted. An applicant who is a switchless reseller<sup>2</sup> must demonstrate that it has a minimum of \$25,000 of cash or cash equivalent (as described in D.91-10-041, 41 CPUC2d 505 at 520 (1991)), reasonably liquid and readily available to meet the firm's start-up expenses. Such applicants shall also document any deposits required by LECs or interexchange carriers and demonstrate that they have additional resources to cover all such deposits. (D.93-05-010, 49 CPUC2d 197 at 208 (1993).) In addition, an applicant is required to make a reasonable showing of technical expertise in telecommunications or a related business.

As part of its application applicant provided an unaudited balance sheet demonstrating that applicant has more than \$25,000, consisting of cash and cash equivalent. It satisfies our criteria for being reasonably liquid and readily available to meet the applicant's needs.

Applicant filed a motion for a limited protective order for its financial statement citing that it contains confidential information and would do harm to applicant if revealed. No opposition to the motion has been filed.

Applicant has provided information on its key managers indicating their education, technical training, and experience. It can be summarized as follows:

---

<sup>2</sup> D.93-05-010 defines a switchless reseller as a nondominant interexchange carrier (NDIEC) with the following characteristics: it uses the switch of another carrier; it usually, but not always, uses access circuits that the underlying carrier purchases from a local exchange carrier (LEC); it provides service in its own name, and its customers view it as their telephone company for interLATA and interstate calls. D.92-06-069 noted that it is possible to control, operate, or manage telephone lines without owning them. The decision also notes that resellers which do not own or directly operate their own telephone wires may still have plant which is owned, controlled, operated, and/or managed in order to facilitate communication by telephone. Applicant is a switchless reseller.

Applicant's president, Robert H. Lorsch, has more than 10 years' experience in telecommunications.

Applicant's chief financial officer, Glen A. Folck, has more than six years' experience in accounting.

Applicant's vice president, William H. MacKall, has more than five years' experience in telecommunications sales.

We will authorize the intraLATA services that applicant seeks to provide in addition to the interLATA services already granted the applicant.

Findings of Fact

1. Applicant served a copy of the application upon telephone corporations with which it is likely to compete.
2. A notice of the filing of the application appeared in the Daily Calendar on November 13, 1996.
3. No protests have been filed.
4. No opposition to the motion for confidentiality of the applicant's financial documents has been filed.
5. A hearing is not required.
6. By prior Commission decisions, we authorized competition in providing interLATA telecommunications service but generally barred those offering such service from holding out to the public the provision of intraLATA service.
7. By D.94-09-065, we authorized competitive intraLATA services effective January 1, 1995, for carriers meeting specified criteria.
8. Applicant has demonstrated that it has a minimum of \$25,000 of cash and cash equivalent, reasonably liquid and readily available to meet its start-up expenses.
9. Applicant has represented that its underlying carriers do not require deposits.
10. Applicant's technical experience consists of three employees with combined experience of over 21 years in telecommunications-related businesses.

11. Applicant has submitted with its application a complete draft of applicant's initial tariff which complies with the requirements established by the Commission including prohibitions on unreasonable deposit requirements.

12. Applicant has represented that no one associated with or employed by applicant was previously associated with an NDIEC that filed for bankruptcy or went out of business.

13. Since no facilities are to be constructed, the proposed operation will not have a significant effect upon the environment.

14. The Commission has routinely granted NDIECs, such as applicant, an exemption from Rule 18(b) where no construction is involved to the extent that the rule requires applicant to serve a copy of its application on cities and counties in the proposed service area and to the extent that it requires applicant to provide a conformed copy of all exhibits attached to applicant's filed application to potential competitors.

15. Exemption from the provisions of PU Code §§ 816-830 has been granted to other resellers. (See, e.g., D.86-10-007 and D.88-12-076.)

16. The transfer or encumbrance of property of nondominant carriers has been exempted from the requirements of PU Code § 851 whenever such transfer or encumbrance serves to secure debt. (See D.85-11-044.)

- e. The current 2.87% surcharge applicable to all intrastate services except for those excluded by D.94-09-065, as modified by D.95-02-050, to fund the California High Cost Fund-B (D.96-10-066, p. 191, App. B, Rule 6.F); and
