Case 91-10-014
(Filed October 2, 1991)

ORDER CLOSING PROCEEDINGS

On September 2, 1992, the Commission issued Decision (D.) in these proceedings which concluded that Wolfback Water Company, Inc. (Wolfback) is a public utility under the provisions of Public Utility (PU) Code Section 2701. However, the Commission refrained from regulating Wolfback and encouraged it and its customers to form a utility assessment district and to be annexed by Marin Municipal Water District (MMWD).

The proceedings in Case (C.) 91-10-010 and C.91-10-014 were closed with leave to open upon filing of a petition to reopen.

Several customers of Wolfback petitioned the Commission to reopen the proceedings and to assume the regulation of Wolfback.

C.91-10-010, C.91-10-014 ALJ/AVG/sng

In response to the petition, the Commission reopened the proceedings and issued a supplemental order, D.93-10-025 which assumed regulation of Wolfback.

While all the issues raised in C.91-10-010 and C.91-10-014 had been addressed, D.93-10-025 inadvertently did not close the proceedings. No purpose will be served by keeping these proceedings open. Accordingly we will close these proceedings.

IT IS ORDERED that the proceedings in Case (C.) 91-10-010 and C.91-10-014 are closed.

This order is effective today.

Dated June 25, 1997, at San Francisco, California.
