O P I N I O N

Sanjit S. Taunk (applicant), an individual, doing business as California Airport Shuttle, requests authority pursuant to Public Utilities Code § 1031, et seq., to establish and operate as on-call passenger stage corporation to transport passengers and their baggage between points in the Counties of Alameda, San Mateo, and Santa Clara, on the one hand, and San Francisco, Oakland, San Jose (SJC) International Airports, on the other hand, and between the above airports.

Applicant proposes to perform an on-call service, between 5:00 a.m. and 11:00 p.m., 7 days a week. Applicant proposes to use two 8-passenger vans. An undated Balance Sheet, attached to the application as Exhibit D, shows total assets in the amount of \$37,430; total liabilities in the amount of \$810; and net worth in the amount of \$36,620. The applicant requested in his letter of October 2, 1997, to reduce the proposed service area. Applicant proposes to serve between points and places in the Counties of Santa Clara and a portion of San Mateo, whose northerly boundary is State Highway 92, on the one hand, and SJC, on the other hand. The proposed fares, shown in Exhibit A attached to the application, are reasonable.

Notice of filing of the application appeared in the Commission's Daily Calendar of September 4, 1997. No protest has been received. The applicant notified the affected airports, cities, and governmental entities. The Rail Safety and Carriers Division recommends that the application be granted.

Findings of Fact

1. Applicant requests authority to establish and operate an on-call passenger stage corporation to transport passengers and their baggage between points and places in the Counties of Santa Clara and a portion of San Mateo, whose northerly boundary is State Highway 92, on the one hand, and SJC, on the other hand, as amended by applicant's letter dated October 2, 1997.

2. Public convenience and necessity require the issuance of a certificate to perform the proposed service.

3. No protests to the application have been filed.

4. It can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment.

Conclusions of Law

1. A public hearing is not necessary.

2. Public convenience and necessity have been demonstrated and the application should be granted.

3. Since there is no formal objection filed with the Commission to the application, this decision should be effective on the date it is signed.

Only the amount paid to the State for operative rights may be used in rate fixing. The State may grant any number of rights and may cancel or modify the monopoly feature of these rights at any time.
