(Filed April 26, 1995)

**ORDER CORRECTING ERROR IN DECISION 98-09-066**

This decision corrects an error in Decision (D.) 98-09-066 in which the Commission granted the petitions for certificates of public convenience and necessity (CPCN) to operate as facilities-based competitive local carriers (CLCs) and to offer resold local exchange services within the territories of Pacific Bell (Pacific), GTE California Incorporated (GTEC), Roseville Telephone Company (RTC), and Citizens Telephone Company (CTC), for nine petitioners as set forth in Appendix B of that decision, subject to the terms and conditions included therein. The Commission also granted petitioners' requests for intrastate interLocal Access and Transport Areas (interLATA) and intraLATA authority on a statewide basis as designated in Appendix of that decision.

Appendix B of D.98-09-066 inadvertently omitted the Utility U-Number which is used to identify each certificated carrier. An amended Appendix B is attached to this decision, inserting the previously omitted U-Number.

Therefore, pursuant to Resolution A-1661, IT IS ORDERED that the amended Appendix B of Decision 98-09-066 which provides utility U-Number for each petitioner be adopted and supercede the previous version of Appendix B.

This order is effective today.

Dated OCT 28 1998, at San Francisco, California.

Executive Director
