Decision 99-03-017 March 4, 1999

DARBITAL

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

Application of Pre-Paid Phones, Ltd., for a Certificate of Public Convenience and Necessity to Offer Local Exchange, Access and Interexchange Services.

Application 98-12-016 (Filed December 17, 1998)

OPINION

I. Summary

Pre-Paid Phones, Ltd. (applicant) seeks a certificate of public convenience and necessity (CPCN) under Public Utilities (Pub. Util.) Code § 1001 for authority to provide nonfacilities-based resold local exchange and interexchange telecommunications services. By this decision, we grant the authority requested subject to the terms and conditions set forth below.

II. Background

By Decision (D.) 84-01-037 (14 CPUC2d 317 (1984)) and later decisions, we authorized interLATA entry generally. However, we limited the authority conferred to interLATA service; and we subjected the applicants to the condition that they not hold themselves out to the public as providing intraLATA service. Subsequently, by D.94-09-065, we authorized competitive intraLATA

¹California is divided into ten Local Access and Transport Areas (LATAs) of various sizes, each containing numerous local telephone exchanges. "InterLATA" describes services, revenues, and functions that relate to telecommunications originating in one LATA and terminating in another. "IntraLATA" describes services, revenues, and functions that relate to telecommunications originating and terminating within a single LATA.

interexchange services effective January 1, 1995, for carriers meeting specified criteria.

In D.95-07-054 and D.95-12-056, we authorized the filing of applications for authority to offer competitive local exchange service within the territories of Pacific Bell (Pacific) and GTE California Incorporated (GTEC). Applicants who are granted authority to provide competitive local exchange service must comply with various rules, including: (1) the consumer protection rules set forth in Appendix B of D.95-07-054; (2) the rules for local exchange competition set forth in Appendix C of D.95-12-056; and (3) the customer notification and education rules adopted in D.96-04-049.

III. Overview of the Application

Applicant, a Nevada limited liability company, filed Application (A.) 98-12-016 on December 17, 1998. There were no protests to the application. Applicant seeks authority to provide nonfacilities-based resold interexchange service as a nondominant interexchange carrier (NDIEC), and local exchange services as a competitive local carrier (CLC) throughout Pacific's and GTEC's service territories.

IV. Procedural Matters

In Resolution ALJ 176-3007, dated January 7, 1999, the Commission preliminarily categorized this application as ratesetting, and preliminarily determined that hearings were not necessary. No protests have been received. Given this status, a public hearing is not necessary, and it is not necessary to alter the preliminary determinations.

This is an uncontested matter in which the decision grants the relief requested. Accordingly, pursuant to Pub. Uti. Code Section 311(g)(2), the otherwise applicable 30-day period for public review and comment is being waived.

V. Financial Qualifications of Applicant

To be granted a CPCN, an applicant for authority to provide nonfacilities-based local exchange and/or interexchange services must demonstrate that it has a minimum of \$25,000 of cash or cash equivalent to meet the firm's start-up expenses. To meet this requirement, applicant provided a guarantee by its president that demonstrated that it has sufficient cash to meet this requirement.

An applicant seeking authority to provide local exchange or interexchange services must also demonstrate that it has sufficient additional resources to cover all deposits required by local exchange carriers (LECs) and/or interexchange carriers (IECs). Applicant represented that no telecommunications carrier will require it to make a deposit before service can be initiated.

We find that applicant has met our requirement that it possesses sufficient financial resources to fund its operations.

VI. Technical Qualifications of Applicant

Applicants for NDIEC and CLC authority are required to make a reasonable showing of technical expertise in telecommunications or a related business. To meet this requirement, applicant submitted biographical information on its president. This biographical information demonstrated that applicant's possesses sufficient experience and knowledge to operate as a telecommunications reseller. Applicant represented that no one associated with or employed by applicant as an affiliate, officer, director, partner, or owner of

² The \$25,000 requirement for CLCs is contained in D.95-12-056, Appendix C. The \$25,000 requirement for NDIECs is contained in D.91-10-041.

³ The requirement for CLC applicants to demonstrate that they have additional financial resources to meet any deposits required by underlying LECs and/or IECs is set forth in D.95-12-056, Appendix C. For NDIECs, the requirement is found in D.93-05-010.

more than 10% of applicant was previously associated with an NDIEC that filed for bankruptcy or went out of business, or was sanctioned by the Federal Communications Commission or any state regulatory agency for failure to comply with any regulatory statute, rule, or order.

We find that applicant is technically qualified to operate as a CLC and NDIEC reseller.

VII. California Environmental Quality Act (CEQA)

CEQA requires the Commission as the designated lead agency to assess the potential environmental impact of a project in order that adverse effects are avoided, alternatives are investigated, and environmental quality is restored or enhanced to the fullest extent possible. Applicant represented that it will not be constructing any facilities for the purpose of providing interexchange or local exchange services. It can be seen with certainty that there is no possibility that granting this application will have an adverse effect upon the environment.

VIII. Conclusion

We conclude that the application conforms to our rules for certification to provide competitive local exchange and interexchange telecommunications services. Accordingly, we shall approve the application subject to the terms and conditions set forth herein.

Findings of Fact

- 1. Applicant filed A.98-12-016 on December 17, 1998, for authority to provide telecommunications services as both a CLC and an NDIEC.
- 2. Notice of A.98-12-016 appeared in the Daily Calendar on December 21, 1998.
 - 3. No protests have been filed.
 - 4. A hearing is not required.

- 5. In prior Commission decisions, competition in providing interLATA telecommunications services was authorized, but those offering such services were generally barred from holding out to the public the provision of intraLATA service.
- 6. In D.94-09-065, the Commission authorized competitive intraLATA services effective January 1, 1995, for carriers meeting specified criteria.
- 7. In prior decisions the Commission authorized competition in providing local exchange telecommunications service within the service territories of Pacific and GTEC.
- 8. In D.95-07-054, D.95-12-056, D.95-12-057, and D.96-02-072, the Commission authorized CLCs meeting specified criteria to offer facilities-based services effective January 1, 1996, and resale services effective March 31, 1996.

 - 14. Exemption from the provisions of Pub. Util. Code §§ 816-830 has been granted to other NDIECs and CLCs. (See, e.g., D.86-10-007, D.88-12-076, D.97-01-015, and D.96-05-060.)

- 15. The transfer or encumbrance of property of nondominant carriers has been exempted from the requirements of Pub. Util. Code § 851 whenever such transfer or encumbrance serves to secure debt. (See D.85-11-044, D.97-01-015, and D.96-05-060.)
- 16. By D.97-06-107, all interexchange carriers and CLCs are no longer required to comply with General Order 96-A, subsections III.G(1) and (2), and Commission Rules of Practice and Procedure 18(b).
