

Decision 00-02-003 February 3, 2000

**BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA**

Application of Gold Tel Corporation for a  
Certificate of Public Convenience and Necessity  
to Offer Local Exchange Services.

Application 99-08-035  
(Filed August 19, 1999)

**OPINION**

**I. Summary**

Gold Tel Corporation (applicant) seeks a certificate of public convenience and necessity (CPCN) under Pub. Util. Code § 1001 for authority to provide resold local exchange telecommunications services as a competitive local carrier (CLC).<sup>1</sup> By this decision, we grant applicant authority to operate as a nonfacilities-based reseller of local exchange services in the service territories of Pacific Bell (Pacific) and GTE California Incorporated (GTEC).

**II. Regulatory Background**

In Decision (D.) 95-07-054, D.95-12-056, and D.97-06-107, we established procedures to govern applications for authority to offer competitive local exchange service within the service territories of Pacific and GTEC. Applicants that are granted authority to provide competitive local exchange service must comply with various rules established by the Commission, including: (1) the consumer protection rules set forth in Appendix B of D.95-07-054; (2) the rules

for local exchange competition set forth in Appendix C of D.95-12-056; and (3) the customer notification and education rules adopted in D.96-04-049.

### **III. Overview of the Application and Procedural Background**

Applicant, a Washington corporation, filed its application on August 19, 1999.

In its application, applicant requested authority to operate as a nonfacilities-based reseller of local exchange services within Pacific's and GTEC's service territories.

The California Environmental Quality Act requires the Commission as the designated lead agency to assess the potential environmental impact of a project in order that adverse effects are avoided, alternatives are investigated, and environmental quality is restored or enhanced to the fullest extent possible. Since applicant states that it will not be constructing any facilities for the purpose of providing local exchange services, it can be seen with certainty that there is no possibility that granting this application will have an adverse impact upon the environment. Applicant must file for additional authority before it can construct facilities and must submit to a review of its facilities pursuant to CEQA.

In Resolution ALJ 176-3022 dated September 2, 1999, the Commission preliminarily categorized this application as ratesetting, and preliminarily determined that hearings were not necessary. No protests have been received. There is no apparent reason why the application should not be granted. Given these developments, a public hearing is not necessary, and it is not necessary to disturb the preliminary determinations.

This is an uncontested matter in which the decision grants the requested relief. Therefore, pursuant to Pub. Util. Code § 311(g)(2), the otherwise applicable 30-day period for public review and comment is being waived.

#### **IV. Financial Qualifications of Applicant**

To be granted a CPCN for authority to resell local exchange service, an applicant must demonstrate that it has \$25,000 of cash or cash equivalent to meet the firm's start-up expenses. The applicant must also demonstrate that it has sufficient additional resources to cover all deposits required by other telecommunications carriers in order to provide service in California.<sup>2</sup>

Applicant provided a guarantee by its parent corporation, IWBC.NET Corporation, which satisfies the financial requirements.

#### **V. Technical Qualifications of Applicant**

To be granted a CPCN for authority to resell local exchange service, an applicant must make a reasonable showing of technical expertise in telecommunications or a related business. Applicant supplied biographical information on its officers and principals that demonstrates that it has sufficient expertise and training to operate as a communications reseller.

To further demonstrate its technical expertise and fitness to serve, applicant represented that no one associated with or employed by applicant as an affiliate, officer, director, partner, or owner of more than 10% of applicant, was previously associated with any telecommunications carrier that filed for bankruptcy or went out of business, or was sanctioned by the Federal Communications Commission or any state regulatory agency for failure to comply with any regulatory statute, rule or order.

We find that applicant has met our requirement that it possesses adequate technical expertise to operate as a CLC.

---

<sup>2</sup> The financial standards for certification to operate as a CLC are set forth in D.95-12-056, Appendix C, Rule 4.B.

Commission staff also reviewed applicant's draft tariffs for compliance with Commission rules and regulations. The deficiencies are noted in Attachment B of this decision. In its compliance tariff filing, applicant is directed to correct these deficiencies as a condition of our granting approval of the tariffs.

## **VI. Conclusion**

We conclude that the application conforms to our rules for certification as a CLC. Accordingly, we shall grant applicant a CPCN to resell local exchange service in the service territories of Pacific and GTEC subject to compliance with the terms and conditions set forth herein. Applicant will not be authorized to construct any facilities. It will need to file for additional authorization to do so.

## **Findings of Fact**

1. Application (A.) 99-08-035 was filed on August 19, 1999.
2. A notice of the filing of the application appeared in the Daily Calendar on August 23, 1999.
3. By D.97-06-107, all interexchange carriers (IECs) and CLCs are no longer required to comply with General Order 96-A, subsections III.G(1) and (2), and Commission Rule of Practice and Procedure 18(b).
4. By D.95-07-054, D.95-12-056, D.95-12-057, and D.96-02-072, the Commission authorized CLCs meeting specified criteria to provide facilities-based local exchange services beginning January 1, 1996, and resold local exchange services beginning March 31, 1996.
5. There were no protests to this application.
6. A hearing is not required.
7. In prior decisions, the Commission authorized competition in providing local exchange telecommunications services within the service territories of Pacific and GTEC.

8. Applicant has a minimum of \$25,000 of cash or cash equivalent that is reasonably liquid and readily available to meet its start-up expenses.

9. Applicant has sufficient additional cash or cash equivalent to cover any deposits that any telecommunications carriers may require in order to provide the proposed service.

10. Applicant's management possesses sufficient expertise to provide resold local exchange services to the public.

11. As part of its application, applicant submitted a draft of its initial tariff that contained the deficiencies identified in Attachment B to this decision. Except for these deficiencies, applicant's draft tariffs complied with the requirements established by the Commission.

12. Since applicant does not propose to construct any facilities in order to provide resold local exchange services, it can be seen with certainty that granting applicant authority to provide resold local exchange services will not have a significant adverse effect upon the environment.

13. By D.95-12-057, as modified by D.97-01-015, CLCs are exempt from Pub. Util. Code §§ 816-830.

14. By D.95-12-057, as modified by D.97-01-015, CLCs are exempt from Pub. Util. Code §§ 816-830.

### **Conclusions of Law**

1. Applicant has the financial ability to provide the proposed service.

2. Applicant has made a reasonable showing of technical expertise in telecommunications.

3. Public convenience and necessity require the competitive local exchange services to be offered by applicant, subject to the terms and conditions set forth herein.

4. Applicant is subject to:

- d. The current surcharge applicable to all intrastate services except for those excluded by D.94-09-065, as modified by D.95-02-050, to fund the California High Cost Fund-A (Pub. Util. Code § 739.30; D.96-10-066, pp. 3-4, App. B, Rule 1.C; set by Resolution T-16242 at 0.0% for 1999, December 3, 1998);
- e. The current 2.6% surcharge applicable to all intrastate services except for those excluded by D.94-09-065, as modified by D.95-02-050, to fund the California High Cost Fund-B (D.96-10-066, p. 191, App. B, Rule 6.F., Resolution T-16365 December 2, 1999); and

5. The application should be granted to the extent set forth below.

6. Applicant, once granted a CPCN to operate as a CLC, should be subject to the Commission's rules and regulations regarding the operations of CLCs as set forth in D.95-07-054, D.95-12-056, and other Commission decisions.

7. Any CLC which does not comply with our rules for local exchange competition adopted in Rulemaking (R.) 95-04-043 shall be subject to sanctions including, but not limited to, revocation of its CLC certificate.
