**BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA**

Application of American Fiber Network, Inc. for  
a Certificate of Public Convenience and Necessity  
to Offer Local Exchange, Access and  
Interexchange Services.

Application 99-11-009  
(Filed November 4, 1999)

**O P I N I O N**

**I. Summary**

American Fiber Network, Inc. (Applicant) seeks a certificate of public convenience and necessity (CPCN) under Pub. Util. Code § 1001 for authority to provide nonfacilities-based resold local exchange and interexchange telecommunications services. By this decision, we grant the authority requested subject to the terms and conditions set forth below.

**II. Background**

By Decision (D.) 84-01-037 (14 CPUC2d 317 (1984)) and later decisions, we authorized Local Access and Transport Areas (LATA) interLATA entry generally.<sup>1</sup> However, we limited the authority conferred to interLATA service; and we subjected the applicants to the condition that they not hold themselves out to the public as providing intraLATA service. Subsequently,

---

<sup>1</sup> California is divided into ten LATAs of various sizes, each containing numerous local telephone exchanges. "InterLATA" describes services, revenues, and functions that relate to telecommunications originating in one LATA and terminating in another. "IntraLATA" describes services, revenues, and functions that relate to telecommunications originating and terminating within a single LATA.

by D.94-09-065, we authorized competitive intraLATA interexchange services effective January 1, 1995, for carriers meeting specified criteria.

In D.95-07-054 and D.95-12-056, we authorized the filing of applications for authority to offer competitive local exchange service within the territories of Pacific Bell (Pacific) and GTE California Incorporated (GTEC). Applicants who are granted authority to provide competitive local exchange service must comply with various rules, including: (1) the consumer protection rules set forth in Appendix B of D.95-07-054; (2) the rules for local exchange competition set forth in Appendix C of D.95-12-056; and (3) the customer notification and education rules adopted in D.96-04-049.

### **III. Overview of the Application**

Applicant, a Delaware corporation, filed Application 99-11-009 on November 4, 1999. There were no protests to the application. Applicant seeks authority to provide nonfacilities-based resold interexchange service as a nondominant interexchange carrier (NDIEC), and local exchange service as a competitive local carrier (CLC) throughout Pacific's and GTEC's service territories.

### **IV. Procedural Matters**

In Resolution ALJ 176-3027, dated November 18, 1999, the Commission preliminarily categorized this application as ratesetting, and preliminarily determined that hearings were not necessary. No protests have been received. There is no apparent reason why the application should not be granted. Given these developments, a public hearing is not necessary, and it is not necessary to disturb the preliminary determinations.

### **V. Financial Qualifications of Applicant**

To be granted a CPCN, an applicant for authority to provide nonfacilities-based local exchange and/or interexchange services must

demonstrate that it has a minimum of \$25,000 of cash or cash equivalent to meet the firm's start-up expenses.<sup>2</sup> It must also demonstrate that it has sufficient additional resources to cover all deposits required by local exchange carriers (LECs) and/or interexchange carriers (IECs).<sup>3</sup> To meet this requirement, Applicant provided a guarantee by an affiliate that demonstrates that it has sufficient cash to meet these requirements.

We find that Applicant has met our requirement that it possesses sufficient financial resources to fund its operations.

## **VI. Technical Qualifications of Applicant**

Applicants for NDIEC and CLC authority are required to make a reasonable showing of technical expertise in telecommunications or a related business. To meet this requirement, Applicant submitted biographical information on its management. This biographical information demonstrates that Applicant possesses sufficient experience and knowledge to operate as a telecommunications reseller. Applicant also represents that no one associated with or employed by Applicant as an affiliate, officer, director, partner, or owner of more than 10% of Applicant was previously associated with any telecommunications carrier that filed for bankruptcy or went out of business, or was sanctioned by the Federal Communications Commission or any state regulatory agency for failure to comply with any regulatory statute, rule, or order.

---

<sup>2</sup> The \$25,000 requirement for CLCs is contained in D.95-12-056, Appendix C. The \$25,000 requirement for NDIECs is contained in D.91-10-041.

<sup>3</sup> The requirement for CLC applicants to demonstrate that they have additional financial resources to meet any deposits required by underlying LECs and/or IECs is set forth in D.95-12-056, Appendix C. For NDIECs, the requirement is found in D.93-05-010.

We find that Applicant is technically qualified to operate as a CLC and NDIEC reseller.

**VII. California Environmental Quality Act (CEQA)**

CEQA requires the Commission as the designated lead agency to assess the potential environmental impact of a project in order that adverse effects are avoided, alternatives are investigated, and environmental quality is restored or enhanced to the fullest extent possible. Applicant declares that it will not be constructing any facilities for the purpose of providing interexchange or local exchange services. It can be seen with certainty that there is no possibility that granting this application will have an adverse effect upon the environment. Applicant must file for additional authority, and submit to any required CEQA review, before it can construct any facilities.

**VIII. Request for Confidentiality**

Applicant requested that the financial information and estimates of the number of customers for its first and fifth years, filed with this application, be filed under seal. It represented that the information is proprietary and sensitive. The information, if revealed, would place Applicant at an unfair business disadvantage. We have granted similar requests in the past and will do so here.

**IX. Conclusion**

We conclude that the application conforms to our rules for authority to provide competitive local exchange and interexchange telecommunications services. Accordingly, we shall approve the application subject to the terms and conditions set forth herein. Applicant will not be authorized to construct any facilities. It will need to file for additional authorization to do so.

## **X. Comments on Draft Decision**

This is an uncontested matter, in which the decision grants the relief requested. Accordingly, pursuant to Pub. Util. Code § 311(g)(2), the otherwise applicable 30-day period for public review and comment is being waived.

### **Findings of Fact**

1. Notice of the application appeared in the Daily Calendar on November 8, 1999.
2. No protests have been filed.
3. A hearing is not required.
4. In prior Commission decisions, competition in providing interLATA telecommunications services was authorized, but those offering such services were generally barred from holding out to the public the provision of intraLATA service.
5. In D.94-09-065, the Commission authorized competitive intraLATA services effective January 1, 1995, for carriers meeting specified criteria.
6. In prior decisions the Commission authorized competition in providing local exchange telecommunications service within the service territories of Pacific and GTEC.
7. In D.95-07-054, D.95-12-056, D.95-12-057, and D.96-02-072, the Commission authorized CLCs meeting specified criteria to offer facilities-based services effective January 1, 1996, and resale services effective March 31, 1996.
8. Applicant has a minimum of \$25,000 of cash or cash equivalent that is reasonably liquid and readily available to meet its start-up expenses as well as additional funds sufficient to cover any deposits that may be required in order to provide the proposed service.

9. Applicant possesses the requisite experience and knowledge to resell telecommunications services.

10. Applicant will not be constructing any facilities for the purposes of providing interexchange or local exchange service.

11. As part of its application, Applicant submitted a draft of its initial tariff that contained the deficiencies identified in Attachment B to this decision. Except for those deficiencies, Applicant's draft tariffs complied with the requirements established by the Commission.

12. Exemption from the provisions of Pub. Util. Code §§ 816-830 has been granted to other NDIECs and CLCs. (See, e.g., D.86-10-007, D.88-12-076, D.97-01-015, and D.96-05-060.)

13. The transfer or encumbrance of property of nondominant carriers has been exempted from the requirements of Pub. Util. § 851 whenever such transfer or encumbrance serves to secure debt. (See D.85-11-044, D.97-01-015, and D.96-05-060.)

14. By D.97-06-017, all interexchange carriers and CLCs are no longer required to comply with General Order 96-A, subsections III.G(1) and (2), and Commission Rules of Practice and Procedure 18(b).

15. Applicant requested that the financial information and estimates of the number of customers for its first and fifth years, filed with the application, be kept under seal.

16. Public disclosure of the financial information and estimates of the number of customers for its first and fifth years, submitted with this application, would place Applicant at an unfair business disadvantage.

### **Conclusions of Law**

1. Applicant has the financial ability to provide the proposed service.

2. Applicant has made a reasonable showing of technical expertise in telecommunications.

3. Public convenience and necessity require that Applicant's competitive local exchange and interexchange services be subject to the terms and conditions set forth herein.

4. Applicant is subject to:

- a. The current 0.50% surcharge applicable to all intrastate services except for those excluded by D.94-09-065, as modified by D.95-02-050, to fund the Universal Lifeline Telephone Service (Pub. Util. Code § 879; Resolution T-16366, December 2, 1999).

- d. The current surcharge applicable to all intrastate services except for those excluded by D.94-09-065, as modified by D.95-02-050, to fund the California High Cost Fund-A (Pub. Util. Code § 739.30; D.96-10-066, pp. 3-4, App. B, Rule 1.C; set by Resolution T-16380 at 0.0% for 2000, January 20, 2000).
- e. The current 2.6% surcharge applicable to all intrastate services except for those excluded by D.94-09-065, as modified by D.95-02-050, to fund the California High Cost Fund-B (D.96-10-066, p. 191, App. B, Rule 6.F., Resolution T-16365 December 2, 1999).

5. Applicant should be exempted from Pub. Util. Code §§ 816-830.

7. Since Applicant will not be constructing any facilities, it can be seen with certainty that there will be no significant effect on the environment.
8. The application should be granted to the extent set forth below.
9. Applicant, once granted a certificate of public convenience and necessity to operate as a CLC, should be subject to the Commission's rules and regulations regarding the operations of CLCs as set forth in D.95-07-054, D.95-12-056, and other Commission decisions.
10. Applicant's initial tariff filing should correct the deficiencies in its draft tariffs as indicated in Attachment B to this decision.
